

Meeting: Council

Meeting Date: 26 April 2023

Subject: Adoption of Annual Report and Summary for year ended 30 June 2022

File No: 201000

1 Purpose

The purpose of this report is to adopt the annual report and annual report summary for the year ended 30 June 2022 and provide a brief overview of Council's performance for the 2021/2022 year.

2 Background

The Local Government Act 2002 requires that councils produce each year an annual report as well as annual report summary and these documents are audited. The annual report must comply with generally accepted accounting practices which includes the public benefit entity accounting standards.

Council, as a tier 2 entity (total expenses are less than \$30 million), has adopted the reduced disclosures regime for the preparation of the annual report. The annual report and annual report summary must be adopted by Council, usually within 4 months of the end of the financial year and within a month of adoption the reports must be available to the public. However, legislation has been passed that extended the period councils must adopt their Annual Report and Summary due to a shortage of auditors.

At the time of writing this report, Council's auditors had not fully completed their final check of the annual report and summary and some minor amendments may still be needed.

3 Performance for the year ended 30 June 2022

Council achieved 40 out of 62 non-financial performance targets, 65% compared to 68% in 2020/21. The effects of Covid-19 continued to have an impact on achieving some of these targets, as well as resourcing shortages.

In the Statement of Comprehensive Revenue and Expense, there was a deficit of \$110,927 compared to a budgeted deficit of \$107,990, a small increase in the deficit of \$2,937. Council spent an additional \$745,612 more than budgeted on operations, but also received \$742,675 more revenue than budgeted, which was mainly grants income. The additional expenditure was mainly due to the cost of solid waste disposal and an increase in depreciation of \$279,900 compared to budget.

The Statement of Financial Position shows an increase in Council's Net Assets of \$18.7 million, a 21.7% increase compared to 30 June 2021 and a \$31.9 million (43.7%) increase on budget. This significant increase from 30 June 2021 is due to the triennial revaluation of Council's assets (including infrastructural assets) an increase of \$18.8 million.

The funding impact statement for the whole of council shows that Council had a surplus from operating of \$2,768,949, compared to the budget of \$2,173,700, this is mainly due to an increase in Subsidies and Grants funding for operating purposes. For the sources of capital funding, it was budgeted that there would be an increase in debt of \$2 million, however the debt was not raised during the financial year to 30 June 2022.

The financial prudence disclosure statements (pages 52 – 57) show that for 2021/22 Council achieved its targets for:

- Rates affordability (income affordability)
- Debt affordability benchmark
- Essential services benchmark
- Debt servicing benchmark
- Debt Control Benchmark

The financial prudence targets not achieved, were:

- Rates increases affordability – this graph compares council's actual rates increase with a quantified limited, being the underlying average rate of inflation plus 2%. For 2021/22 Council exceeded the limit due to some increased level of service and rising costs.
- Balanced budget benchmark – this displays Council's revenue as a proportion of operating expenses, which includes depreciation. As Council does not fund the depreciation on all its assets, it is unlikely that Council will achieve the balance budget benchmark, although Council came very close at 99%, compared to the target of 100%.
- Operations control benchmark – which shows council's actual net cash from operations as a proportion of its planned net cash flow from operations. For 2021/22, Council's actual net cash flow from operations was lower than budget due to the additional expenditure needed for solid waste operations.

The COVID-19 pandemic continued to impact on Council and the community during the year with projects, which were delayed in the previous year, having to be carried out during 2021/22. Also, some capital projects were unable to be completed during the year due to shortages in materials and labour.

Council is still in a healthy financial position and its infrastructure continues to function well for the community with minimal interruption.

4 **RECOMMENDATIONS**

1. That the report "Adoption of Annual Report and Summary for the year ended 30 June 2022" be received.
2. That Council adopts the Annual Report and Annual Report Summary for the year ended 30 June 2022.
3. That the Mayor and Chief Executive Officer are delegated to sign the Annual Report for the year ended 30 June 2022 following the adoption by Council.

Lee-Anne Butler, CA, BMS,

MESSAGE FROM THE MAYOR AND CHIEF EXECUTIVE OFFICER

Kia ora and welcome to Council's annual report for the 12 months ended 30 June 2022. The Annual Report outlines how well Council has delivered on what was planned in the Long Term for 2021/22. It also determines the state of Council's finances at the end of the year.

The following is a brief summary of the financial results for 2021/22:

	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
Operating Revenue	14,973,190	15,715,865	742,675
Operating Expense	<u>15,081,180</u>	<u>15,826,792</u>	<u>(745,612)</u>
Operating Surplus/(Deficit)	(107,990)	(110,927)	(2,937)
	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
Assets	78,866,469	113,613,207	34,746,738
Liabilities	5,831,785	8,664,971	(2,833,186)
Ratepayers Equity	73,034,684	104,948,236	31,913,552

Overall the financial result was good, with Council continuing to maintain excellent services for residents while still being in a reasonably strong financial position.

During the year Council spent an additional \$745,612 more than budget on operations, but also received \$742,675 more revenue than budget. This additional revenue resulted from additional grants income received for: swimming pool renovations, 3 waters reforms and employment initiative funding. The additional expenditure mostly resulted from the increased cost of solid waste disposal (both increased volume and the cartage & disposal costs)

COVID-19 pandemic continued to impact on Council and the community during the year with projects which were delayed in the previous year having to be carried out during 2021/22. Also some capital projects were unable to be completed during the year due to shortages in materials and labour.

For the 2021/22 financial year Council spent \$6.0 million on capital projects compared to the budget of \$7.2 million. The reduced expenditure was mainly due to resourcing shortages and delays resulting backlogs from the previous year.

The major achievements during the 2021/22 financial year included:

- Successful management and completion of a number of events including Christmas in the Park
- Continued provision of council services to a high standard throughout the year
- Retention of Building Consent Authority registration and accreditation

The major projects undertaken during the year, included:

- On-going renewal of the town centre and improving the safety for residents
- Construction and sale of eight units in the Porritt Glade Lifestyle Village
- Renewal of 4.9 kms of watermains in the Plunket Street and Onslow Street areas
- Replacement of 2.5 kms of wastewater pipes in CBD and Plunkett Street
- Construction of new entranceway and staffroom at the Aquatic Centre
- Continued progress and renewal of damaged and dangerous footpaths as well as kerb and channels

There are going to be some significant changes for local government in the future, which includes:

3 waters reforms, reviewing the Resource Management Act and the Future of Local Government reform. The impact of these reforms is likely to be significant for both Council and the community, but we will endeavour to keep residents informed as soon as more information is available.

Council received funding throughout the year for events and projects from the following organisations:

- NZ Community Trust (NZCT)
- Lion Foundation
- Trust Horizon (formerly Eastern Bay Energy Trust)
- Community Organisation Grants Scheme (DIA)
- Ministry for Youth and Development
- NZ Lotteries

Council and the community appreciates the support it receives from these organisations.

Finally, our sincere thank councillors, staff and residents for their input throughout the year and their ongoing commitment to making Kawerau a place we can all be proud of.

Faylene Tunui
MAYOR

Russell George, CA, MBA
CHIEF EXECUTIVE OFFICER

IWI AND TANGATA WHENUA RELATIONSHIPS AND CONTRIBUTION TO DECISION-MAKING

Kawerau District Council (Council) is committed to an open dialogue and working relationship with Māori, Tangata Whenua and Iwi, and has been working towards growing these relationships.

Council recognises Ngāti Tūwharetoa (Bay of Plenty) Settlement Trust as tangata whenua and mana whenua of the Kawerau rohe (as a statutory Te Tiriti o Te Waitangi consultation partner).

At a governance level, the Iwi Kaumātua role appointed for Council by Ngāti Tūwharetoa (Bay of Plenty) Settlement Trust in the previous term has provided Council with a Te Ao Māori lens within policy, decision-making and cultural areas through regular scheduled kōrero kanohi-te-kanohi.

During the 2021-2022 financial year, Council has continued to meet regularly with Iwi Kaumātua and acknowledges the support, knowledge and expertise of Tūwharetoa ki Kawerau Kaumātua Te Haukakawa (Boycie) Te Rire, Te Amorangi Graham Te Rire, Tohia o te Rangi Marae Chair Tomai Fox and Kaumātua and Rautahi Marae committee Te Waraki (Chic) Te Ruki.

In the latter half of the 2021-2022 year, this expanded Iwi Kaumātua forum provides for greater support and recognition of the entire hapori. Council acknowledges that an important facet of engagement is the timeliness of raising issues with Iwi Kaumātua. Council strives to ensure better planning to engage at the earliest stage.

A significant proportion of Māori residents in Kawerau are from Iwi other than Tūwharetoa ki Kawerau. Council ensures the view of the entire hapori by engaging with the Kaumātua and Rautahi Marae committee, an urban Marae, consultation partner and member of the Iwi Kaumātua hui.

Council acknowledges other Iwi based organisations in the rohe as consultation partners including Tūwharetoa ki Kawerau Hauora, Kaumātua forum, Pūtauaki Trust and Māori Investments Limited. In addition, Te Kaunihera a rohe o Kawerau acknowledges Te Rūnanga o Ngāti Awa and Ngāti Rangitahi, both Eastern Bay Iwi with a historical connection and mana whenua of whenua and awa in and around the Kawerau rohe.

Of note, are a number of boundary changes been sought for Māori-owned land to be included in the Te Kaunihera a rohe o Kawerau. Totaling some 546 hectares, these requests are endorsed by Whakatāne District Council and Te Kaunihera a rohe o Kawerau and comprise:

- Tohia o te Rangi Marae seeking an area of 63 hectares, at the end of Spencer Avenue. A Tūwharetoa ki Kawerau Marae, Tohia o te Rangi Marae is already serviced by the Kawerau District.
- Approximately 400 hectares (over two separate parcels), largely bordering the existing industrial areas on Kawerau's northeast boundary with the Whakatāne District;
- Approximately 86 hectares, being the part of Otarahanga Farm outside of the western boundary of Kawerau.

The Local Government Commission is now completing a wider consultation phase regarding these boundary changes that closes on 23 March 2023.

SIGNIFICANT EVENTS DURING YEAR

COVID-19 PANDEMIC

The lockdown in the previous financial year and early in 2021/22, restricted some Council services and delayed some capital projects. Some of these projects and corresponding revenue were carried forward to 2021/22. However, the restrictions put in place by the Government continued to have an impact for Council during the 2021/22 financial year.

Assumption

There is the possibility that the COVID-19 pandemic could in future negatively impact the community and in turn this will affect Council's revenue, however, the risk is considered low. The district's industry continues to operate without reductions to their operations or workforce numbers. In addition, rate collection percentages are similar to previous years. Council continues to encourage ratepayers to communicate with them if they are having difficulties. Only a small percentage of Council's revenue is dependent on visitor numbers and while there may be temporary reduction in this revenue, it is minimal.

Council is confident it can continue providing excellent services to the community for a reasonable cost, which the community will be able to afford.

SIGNIFICANT RATEPAYER

During the previous year Norske Skog, which pays approximately 20% of Council's total rates, announced that it was ceasing operations and selling the site and assets. The last date of operation was 30 June 2021, however, the rates revenue for the 2021/22 financial was not impacted. Council considered various options during the year, which included looking at council's costs as well as the allocation of the shortfall in rates. Council decided to allocate the rating shortfall over all ratepayers. Council is confident that it remains a going concern and has prepared these accounts on that basis.

LEGISLATIVE REFORMS

The Government previously announced that it was reviewing three significant areas of local government. These included:

- The three waters reforms
- Review of the Resource and Management Act 1991
- Review of the functions undertaken by local government

(i) Three Waters Reform

Government announced in 2020, it was undertaking a review of the 3 waters (water, wastewater and stormwater) which are mostly owned and managed by the 67 local authorities throughout the country. The proposal by Government is that local authorities would no longer be responsible for delivering these activities and the assets would transfer to 4 entities to deliver the services. The Government initially gave councils the option of opting in or out of these reforms and offered incentives for councils to opt in.

However, Government has since mandated the 3 water reforms. As at 30 June 2022 Kawerau District Council has joined the "Councils for local democracy" opposing the Government's 3 water reforms as it is believed these reforms will be detrimental to the Council and the community.

(ii) RMA and Future of Local Government Reforms

A ministerial enquiry into the future of local government was undertaken during the year focusing on council's roles, functions and partnerships, representation and governance and funding and finance. A draft report with recommendations is scheduled for the end of September 2022 and a final report is expected to be presented to the minister at the end of April 2023. While this review could recommend significant changes to local government and what it does, there is no information available on the possible impacts of this review at this time.

The Minister for the Environment at the beginning of the financial year appointed a Resource Review panel to undertake a comprehensive review of the Resource Management Act and the relationship between affected parties. Government confirmed that the RMA will be repealed and replaced with 3 new acts. While, this will result in changes to how planning processes are carried out, there is no information on the possible impacts at this stage.

Assumptions

The 3 waters reforms will have a significant impact for local government and their respective communities. Also this will influence the future of Local Government review as councils will have reduced activities and revenue unless other functions are given to local government.

However, Council has prepared these accounts under a going concern assumption and at the time of preparing this report is planning to continue to deliver the services as provided in Council's 2021 – 31 Long Term Plan.

KAWERAU DISTRICT COUNCIL COUNCIL & STAFF INFORMATION

The Council is made up of a Mayor and 8 Councillors. The local body elections were last held 12 October 2019 and the next elections will be held in October 2022.

VISION

To create a resilient and sustainable Kawerau that meets the needs of the future

MISSION STATEMENT

1. To represent the interests and aspirations of the Kawerau Community, within and beyond the District.
2. To promote the social, economic, environmental and cultural wellbeing of the Kawerau Community.
3. To continue to provide an industrial base within the District for established industries and their supporting businesses.
4. To promote the advantages of Kawerau in order to grow the District population and further encourage industrial investment and development.
5. To ensure that the independence of the District is maintained.

STATEMENT OF PRINCIPLES

To achieve its Mission, Council will -

1. Provide services, facilities and infrastructure that can support a high quality of life in Kawerau.
2. Engender an attitude of cost effectiveness, customer service and Community responsiveness.
3. Engage with all sectors of the Community to determine their needs and priorities.
4. Maintain a fair system of rating to ensure that Council services are sustainable and satisfy Community needs.
5. Inform and seek feedback from the Community about Council's current and planned activities.
6. Work cooperatively with government agencies, territorial authorities and other stakeholders to maintain or improve Council services.
7. Maintain relationships with industry and business groups represented in the District.
8. Promote the District to attract development.

COMPLIANCE WITH COUNCIL POLICIES

All local authorities are required to prepare the following funding and financial policy documents:

- Revenue and Financing Policy
- Investment Policy
- Liability Management Policy
- Development Contributions or Financial Contributions Policy
- Rates Remission and Rates Postponement on Maori Freehold Land Policy

This report provides an overview of the extent to which Council has complied with its policies.

REVENUE AND FINANCING POLICY

Council reviewed and adopted the Revenue and Financing Policy in June 2021 as part of the preparation of the 2021 – 2031 Long Term Plan. The objective of this policy is to ensure that the costs of Council's activities are met by those benefiting from, or contributing to the need for, the activity.

The overall funding mix achieved by Council for 2021/22 was consistent with its Revenue and Financing Policy.

INVESTMENT POLICY

Council reviewed and adopted the Investment and Policy 30 March 2021. Council delegates responsibility for the management, monitoring and reporting of its investments to the Regulatory and Services Committee. The Investment Policy document sets out the parameters for the operation of the investments that Council can be involved with. The mix of investments between short-term and longer term is determined according to Council's working capital needs.

There were no significant variations or material departures from Council's objectives for its investment activities as reported in the Investment Policy. Council's investments returned \$16,770 compared to the Annual Plan estimate for 2021/22 of \$16,990.

LIABILITY MANAGEMENT POLICY

Council's Liability Management Policy was also adopted 30 March 2021. The policy ensures that Council's debt and associated risks are maintained at prudent levels.

There were no significant variations or material departures from Council's Liability Management Policy during the year.

FINANCIAL CONTRIBUTIONS POLICY

Council's Financial Contributions Policy which was adopted 30 March 2021, retains the provisions of the District Plan that allows the assessment of financial contributions.

No financial contributions were received during the 2021/22 financial year.

RATES REMISSION AND POSTPONEMENT FOR MAORI FREEHOLD LAND POLICY

This Policy sets out the conditions and criteria for the remission and postponement of rates on Maori Freehold Land.

There were no variations or departures during the year from Council's policy as reported in Council's Long Term Plan.

STATEMENT OF COMPLIANCE

COMPLIANCE AND RESPONSIBILITY

The Council and Management accept responsibility for the preparation of the Annual Report and the judgements used in it.

The Council and Management accept responsibility for establishing and maintaining a system of internal control designed to provide reasonable assurance as to the integrity and reliability of the financial and non-financial reporting.

In the opinion of the Council and Management, the Annual Report for the year ended 30 June 2022 fairly reflects the financial position and operations of the Council.

Late adoption of the annual report

The Council was required under section 98 of the Local Government Act 2002 to complete and adopt its audited financial statements and service performance information by 31 December 2022. This timeframe was not met because Audit New Zealand was unable to complete the audit within this timeframe due to an auditor shortage and the consequential effects of Covid-19, including lockdowns.

Other than the late adoption of the annual report, the Council and Management of Kawerau District Council confirm that all statutory requirements in relation to this annual report have been met including those outlines in the Local Government Act 2002, and the Local Government (Financial Reporting and Prudence) Regulations 2014.

NB: PBE IPSAS 1.88 requires in the statement of financial position that separate line items be presented for recoverables from non-exchange transactions, receivables from exchange transactions, taxes and transfers payable, and payables under exchange transactions. We consider that it will be rare that this is a material disclosure. Therefore, we have chosen to focus on providing a meaningful breakdown of receivables and payables in the notes to the financial statements.

KAWERAU DISTRICT COUNCIL

NOTES TO FINANCIAL STATEMENTS

1. Statement of Accounting Policies for the Year Ended 30 June 2022

REPORTING ENTITY

Kawerau District Council is a territorial local authority established under the Local Government Act 2002, is domiciled and operates in New Zealand and has designated itself a public benefit entity for financial reporting purposes.

The financial statements of Kawerau District Council are for the year ended 30 June 2022. The financial statements are authorised for issue by Council on 26 April 2023.

BASIS OF PREPARATION

The financial statements have been prepared on the going concern basis and accounting policies have been applied consistently throughout the period.

The financial statements of Kawerau District Council (KDC) have been prepared in accordance with the requirements of the Local Government Act 2002 and the Local Government (Financial Reporting and Prudence) Regulations, which includes the requirement to comply with New Zealand generally accepted accounting practice (NZ GAAP).

These financial statements have been prepared in accordance with the reduced disclosure regime of tier 2 Public Benefit Entities, as Council:

- Has total expenses of less than \$30 million for the year and
- Does not have debt or equity instruments nor holds assets in a fiduciary duty for a broad group of outsiders.

The financial statements have been prepared on a historical cost basis, modified by the revaluation of land and buildings, certain infrastructural assets, and financial instruments.

The financial statements are presented in New Zealand dollars. The functional currency of KDC is New Zealand dollars.

These financial statements are prepared in accordance with the Public Benefit Entity standards and comply with these standards.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue

Revenue is measured at the fair value of consideration received or receivable.

The accounting policies for significant revenue items are explained as follows:

Rates revenue

The following policies for rates have been applied:

- General rates, targeted rates (excluding water-by-meter), and uniform annual general charges are recognised at the start of the financial year to which the rates resolution relates. They are recognised at the amounts due. The Council considers that the effect of payment of rates by instalments is not sufficient to require discounting of rates receivables and subsequent recognition of interest revenue.
- Rates arising from late payment penalties are recognised as revenue when rates become overdue.

- Revenue from water-by-meter rates is recognised on an accrual basis based on usage. Unbilled usage, as a result of unread meters at year end, is accrued on an average usage basis.
- Rates remissions are recognised as a reduction of rates revenue when the Council has received an application that satisfies its rates remission policy.
- Rates collected on behalf of the Bay of Plenty Regional Council (BOPRC) are not recognised in the financial statements as Council is acting as an agent for the BOPRC.

New Zealand Transport Agency Subsidies

KDC receives government grants from the New Zealand Transport Agency, which subsidises part of KDC's costs in maintaining the local roading infrastructure. The subsidies are recognised as revenue upon entitlement as conditions pertaining to eligible expenditure have been fulfilled.

Other grants received

Other grants are recognised as revenue when they become receivable unless there is an obligation in substance to return the funds if conditions of the grant are not met. If there is an obligation, the grants are initially recorded as grants received in advance and recognised as revenue when conditions of the grant are satisfied.

Provision of services

Revenue from the rendering of services is recognised by reference to the stage of completion of the transaction at balance date, based on the actual service provided as a percentage of the total services to be provided.

Where revenue is derived by acting as an agent for another party, the revenue that is recognised is the commission or fee on the transaction.

Sales of goods

Sales of goods are recognised when a product is sold to the customer.

Vested assets

Where a physical asset is acquired for nil or nominal consideration the fair value of the asset received is recognised as revenue. Assets vested in KDC are recognised as revenue when control over the asset is obtained.

Interest and dividends

Interest revenue is recognised using the effective interest method.

Dividends are recognised when the right to receive payment has been established.

Amenity fees

The Occupation Right Agreement (ORA) conferring the right to occupancy are considered leases under PBE IPSAS 13 – Leases. The amenities fee is calculated as a percentage of the ORA amount and accrues monthly, for a set period, based on the terms of the individual contracts and treated as lease income over the period. The current Disclosure Statement and ORA accrues amenity fees at the rate of 3% per annum for a maximum of 10 years.

The amenities fee is recognised on a straight-line basis in the Statement of Comprehensive Revenue and Expense over the average expected length of stay of residents.

The amenities fee is payable by the resident at the time of repayment (to the resident) of the refundable ORA amount due. At year end, the amenities fee receivable that has yet to be recognised in the Consolidated Statement of Comprehensive Revenue and Expense as amenities fee revenue is recognised as deferred amenities fee on the Consolidated Balance Sheet.

The timing of the recognition of amenities fee is a critical accounting estimate and judgement. The management fee is recognised on a straight-line bases in the Statement of Comprehensive Revenue and Expenditure over the average expected length of stay of residents. The current assessments are as follows:

<u>Expected average length of stay</u>	<u>30 June 2021</u>	<u>30 June 2022</u>
Independent living units	10 years	10 years

There is uncertainty regarding how long resident stays, as they have complete autonomy to terminate their ORA when and for such reasons as they see fit. As the village is new, there is limited data to determine the length of stay. At 30 June 2022, an increase in the average expected length of stay of residents by one year is estimated to reduce amenities fee revenue by \$12,325 (2021: \$4,260) and a decrease of one year would increase amenities fee revenue by \$15,033 (2021: \$5,195).

Borrowing Costs

Borrowing costs are recognised as an expense in the period in which they are incurred.

Grant Expenditure

Non-discretionary grants are those grants that are awarded if the grant application meets the specified criteria and are recognised as expenditure when an application that meets the specified criteria for the grant has been received.

Discretionary grants are those grants where KDC has no obligation to award on receipt of the grant application and are recognised as expenditure when a successful applicant has been notified of KDC's decision.

Leases

Finance leases

A finance lease is a lease that transfers to the lessee substantially all the risks and rewards incidental to ownership of an asset, whether or not title is eventually transferred.

At the commencement of the lease term, KDC recognises finance leases as assets and liabilities in the statement of financial position at the lower of the fair value of the leased item or the present value of the minimum lease payments. The finance charge is charged to the surplus or deficit over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability.

The amount recognised as an asset is depreciated over its useful life. If there is no certainty as to whether KDC will obtain ownership at the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life.

Operating leases

An operating lease is a lease that does not transfer substantially all the risks and rewards incidental to ownership of an asset. Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term.

Receivables

Receivables are recorded at their face value less any provision for impairment.

A provision for impairment of receivables is established when there is objective evidence that KDC will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted using the effective interest method.

Financial assets

KDC classifies its financial assets into the following categories; loans and receivables and financial assets at fair value through other comprehensive revenue and expense. The classification depends on the purpose for which the investments were acquired. Management determines the

classification of its investments at initial recognition and re-evaluates this designation at every reporting date.

Financial assets are initially measured at fair value plus transaction costs unless they are carried at fair value through profit or loss in which case the transaction costs are recognised in the surplus or deficit.

Purchases and sales of investments are recognised on trade-date, the date on which KDC commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the KDC has transferred substantially all the risks and rewards of ownership.

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance date. The quoted market price used is the current bid price.

The categories of financial assets are:

1. Loans and receivables

These are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets except for maturities greater than 12 months after the balance date which are included in non-current assets.

After initial recognition they are measured at amortised cost using the effective interest method less impairment. Gains and losses when the asset is impaired or derecognised are recognised in the surplus or deficit.

Financial assets in this category include cash, cash equivalents, short term deposits (maturities 4 – 12 months) and debtors

2. Fair value through other comprehensive revenue and expense

Financial assets at fair value through other comprehensive revenue and expense are those that are designated into the category at initial recognition or are not classified in any of the other categories above. They are included in non-current assets unless management intends to dispose of the share investment within twelve months of balance date.

This category encompasses:

- Investments that Kawerau District Council intends to hold long term, but which may be realised before maturity.
- Shareholdings that it holds for strategic purposes.

These investments are measured at their fair value with gains and losses recognised in other comprehensive revenue and expense except for impairment losses which are recognised in the surplus or deficit. On de-recognition the cumulative gain or loss previously recognised in other comprehensive revenue and expense is reclassified from equity to the surplus or deficit.

Currently, KDC has shares in BOPLASS Ltd and Local Government Insurance Corporation (Civic Assurance) which are recorded at cost.

Impairment of financial assets

At each balance date, KDC assesses whether there is any objective evidence that a financial asset or group of financial assets is impaired. Any impairment losses are recognised in the surplus or deficit.

Loans and receivables and held-to-maturity investments

Impairment is established when there is evidence that KDC will not be able to collect amounts according to the original terms of the receivable. The amount of the impairment is the difference

between the asset's carrying amount and the present value of estimated future cashflows discounted using the original effective interest rate. For debtors and other receivables, the carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the surplus or deficit. When the receivable is uncollectible it is written off against the allowance amount. Overdue receivables that have been renegotiated are reclassified as current (that is, not past due).

Impairment in term deposits, local authority stock, government bonds and community loans are recognised directly against the instrument's carrying amount.

Financial assets at fair value through other comprehensive revenue and expense

For equity investments, a significant or prolonged decline in the fair value of the investment below its cost is considered objective evidence of impairment.

If impairment evidence exists for investments at fair value through other comprehensive revenue and expense, the cumulative loss (measures as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the surplus or deficit) recognised in other comprehensive revenue and expense is reclassified from equity to the surplus or deficit. Equity instrument impairment losses recognised in the surplus or deficit, are not reversed through the surplus or deficit.

Inventory

Council currently holds two categories of inventory. These are:

- Inventories (such as spare parts and other items) held for distribution or consumption in the provision of services that are not supplied on a commercial basis, are measured at the lower of cost and current replacement cost.
- Residential sections which are available for sale. Council has developed residential sections which are currently held for sale and are measured at the lower of cost or net realisable value in accordance with PBE IPSAS 12

The cost of purchased inventory is determined using the FIFO method.

When land is held for development and future resale is transferred from investment property/property, plant and equipment to inventory, the fair value of the land at the date of the transfer is its deemed cost. Costs directly attributable to the developed land are capitalised to inventory with the exception of infrastructural asset costs, which are capitalised to property, plant and equipment.

Inventories acquired through non-exchange transactions are measured at fair value at the date of acquisition.

The write down from cost to current replacement cost is recognised in the surplus or deficit in the period of the write-down.

Property, plant and equipment

Property, plant and equipment consist of:

Operational assets — these include land, buildings, library books, plant and equipment, and motor vehicles.

Restricted assets — restricted assets are parks and reserves owned by KDC which provide a benefit or service to the community and cannot be disposed of because of legal or other restrictions.

Infrastructure assets — infrastructure assets are the fixed utility systems owned by KDC. Each asset class includes all items that are required for the network to function, for example, sewer reticulation includes reticulation piping and sewer pump stations.

Property, plant and equipment are shown at cost or valuation, less accumulated depreciation and impairment losses.

Land (operational and restricted), library and infrastructural assets (except land under roads) are measured at fair value less accumulated depreciation. All other asset classes are measured at cost less accumulated depreciation and impairment losses.

Revaluation

Operational land and buildings are shown at fair value as determined from market-based evidence by an independent valuer. The most recent valuation was performed by Telfor-Young Ltd, and the valuation was effective as at 30 June 2022.

Restricted land and buildings are shown at fair value as determined from market-based evidence by an independent valuer. The most recent valuation was performed by Telfor-Young Ltd, and the valuation was effective as at 30 June 2022.

Infrastructural asset classes: roads, water reticulation, sewerage reticulation and stormwater systems are recorded at fair value determined on a depreciated replacement cost basis by an independent valuer. The most recent valuation was performed by Bayleys Ltd, and the valuation was effective as at 30 June 2022. All infrastructural asset classes carried at valuation were valued.

Land under roads, was valued based on fair value of adjacent land determined by CB Richard Ellis, effective 1 July 2004. On transition to NZ IFRS, KDC elected to use the fair value of land under roads as at 30 June 2005 as deemed cost. Additions are recorded at cost. Land under roads is no longer revalued.

Library books were valued at deemed cost as at 1 July 1991, by Beca Carter Hollings and Ferner, (Registered Valuers). Library additions are recorded at cost less accumulated depreciation on the diminishing value basis.

Land (operational and restricted), library and infrastructural assets (except land under roads) are revalued with sufficient regularity to ensure that their carrying amount does not differ materially from fair value and at least every three years.

The carrying values of revalued assets are assessed annually to ensure that they do not differ materially from the asset's fair values. If there is a material difference, then the off-cycle asset classes are revalued.

Revaluations of property, plant and equipment are accounted for on a class of asset basis.

The net revaluation results are credited or debited to other to other comprehensive revenue and expense and are accumulated to an asset revaluation reserve in equity for that class of asset. Where this would result in a debit balance in the asset revaluation reserve, this balance is not recognised in other comprehensive revenue and expense but is recognised in the surplus or deficit.

Any subsequent increase on revaluation that reverses a previous decrease in value recognised in the surplus or deficit, will be recognised first in the surplus or deficit up to the amount previously expensed, and then recognised in other comprehensive revenue and expense.

Additions

The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to KDC and the cost of the item can be measured reliably.

Work in progress is recognised at cost, less impairment and is not depreciated. Property, plant and equipment is recognised at its cost. Where an asset is acquired at no cost, or for a nominal cost, (non-exchange transaction), it is recognised at fair value as at the date of acquisition.

Disposals

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount of the asset. Gains and losses on disposals are included in the surplus or deficit. When revalued assets are sold, the amounts included in asset revaluation reserves in respect of those assets are transferred to retained earnings.

Subsequent costs

Costs incurred subsequent to initial acquisition are capitalised only when it is probable that future economic benefits or service potential associated with the item will flow to KDC and the cost of the item can be measured reliably.

Depreciation

Depreciation is provided on either the straight-line (SL) or diminishing value (DV) basis on all property, plant and equipment other than land and pavement formation, at rates that will write off the cost (or valuation) of the assets to their estimated residual values over their useful lives. The estimated useful lives, associated depreciation rates and depreciation basis for each major class of assets is as follows:

	Estimated Useful Life	Depreciation Rate	Basis
Operational			
Buildings	5-50 years	2.0-20.0%	SL
Computer/Electronic Office Equipment	3-15 years	6.7-33.3%	SL
Fixtures, Fittings & Equipment	5-50 years	2.0-20.0%	DV
Plant (including vehicles)	5 years	20.0%	DV
Library Collections (excluding special collections)	7 years	15.0%	DV
Special Collections	Not depreciated		
Infrastructural			
Roading Network			
Street lighting	5-47 years	2.13-20.0%	SL
Kerb, channel & footpath	5-100 years	1.0-20.0%	SL
	Estimated Useful Life	Depreciation Rate	Basis
Infrastructural			
Pavement surface	3-19 years	5.26-33.3%	SL
Pavement structure	5-80 years	1.25-20.0%	SL
Stormwater	5-100 years	1.0-20.0%	SL
Water Systems:			
Collection & Storage	5-80 years	1.25-20.0%	SL
Local Distribution	5-80 years	1.25-20.0%	SL
Sewerage System:			
Reticulation system	5-80 years	1.25-20.0%	SL
Pumping & Treatment	5-80 years	1.25-20.0%	SL
Restricted			
Buildings & Other	6-25 years	4.0%-16.7%	SL

The residual value and useful life of an asset is reviewed, and adjusted if applicable, at each financial year end.

Some assets components classified as buildings have a shorter life than others and therefore there is a significant range for the estimated useful lives of these assets.

Intangible assets

Software acquisition and development

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

Costs associated with maintaining computer software are recognised as an expense when incurred. Costs that are directly associated with the development of software for internal use by KDC, are recognised as an intangible asset. Direct costs include the software development, employee costs and an appropriate portion of relevant overheads.

Amortisation

The carrying value of an intangible asset with a finite life is amortised on a straight-line basis over its useful life. Amortisation begins when the asset is available for use and ceases at the date that the asset is derecognised. The amortisation charge for each period is recognised in surplus or deficit.

The useful lives and associated amortisation rates of major classes of intangible assets have been estimated as follows:

	Estimated Useful Life	Amortisation Rate	Basis
Computer Software	3 - 8 years	12.5 – 33.3%	SL

Impairment of property, plant and equipment and intangible assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that have a finite useful life are reviewed for impairment at balance date. When there is an indicator of impairment, the asset's recoverable amount is estimated.

The impairment amount is the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Value in use is depreciated replacement cost for an asset where the future economic benefits or service potential of the asset are not primarily dependent on the assets ability to generate net cash inflows and where the Council would, if deprived of the asset, replace its remaining future economic benefits or service potential.

The value in use for cash-generating assets is the present value of expected future cash flows.

If an asset's carrying amount exceeds its recoverable amount the asset is impaired and the carrying amount is written down to the recoverable amount. For revalued assets the impairment loss is recognised against the revaluation reserve for that class of asset. Where that results in a debit balance in the revaluation reserve, the balance is recognised in the surplus or deficit.

For assets not carried at a revalued amount, the total impairment loss is recognised in the surplus or deficit.

The reversal of an impairment loss on a revalued asset is credited to the revaluation reserve. However, to the extent that an impairment loss for that class of asset was previously recognised in surplus or deficit, a reversal of the impairment loss is also recognised in the surplus or deficit. For assets not carried at a revalued amount (other than goodwill) the reversal of an impairment loss is recognised in the surplus or deficit.

Payables

Short-term creditors and other payables are recorded at face value.

Employee entitlements

Short-term employee benefits

Employee benefits that KDC expects to be settled within 12 months of balance date are measured at nominal values based on accrued entitlements at current rates of pay.

These include salaries and wages accrued up to balance date, annual leave earned to, but not yet taken at balance date, retiring and long service leave entitlements expected to be settled within 12 months.

KDC recognises a liability for sick leave to the extent that absences in the coming year are expected to be greater than the sick leave entitlements earned in the coming year. The amount is calculated based on the unused sick leave entitlement that can be carried forward at balance date, to the extent that KDC anticipates it will be used by staff to cover those future absences.

Long-term employee entitlements

These are employee entitlements that are payable beyond 12 months, which include long service leave and retirement leave, and have been calculated on an actuarial basis.

The calculations are based on:

- Likely future entitlements accruing to staff, based on years of service, years to entitlement, the likelihood that staff will reach the point of entitlement and contractual entitlements information; and
- The present value of the estimated future cash flows. A discount rate of 3.0%, and an inflation factor of 2.0% were used.
- The discount rate is based on the weighted average of Government interest rates for stock with terms to maturity similar to those of the relevant liabilities. The inflation factor is based on the expected long-term increase in remuneration for employees.

Superannuation schemes

Defined contribution schemes

Obligations for contributions to defined contribution superannuation schemes are recognised as an expense in the statement of comprehensive revenue and expense as incurred.

Refundable Occupation Right Agreements

Occupation right agreements (ORA) conferring the right to occupancy are considered leases under PBE IPSAS 13 – Leases. A new resident is charged a refundable security deposit on being issued the right to occupy which is refunded to the resident on termination, after the subtraction of the capital deduction. The Operator (Council) has a legal right to set off any amounts owing to the Operator by a resident against that resident's deposit, including amenities fee, loans receivable, service fees and village fees. As the agreement can be cancelled by the resident with one month's notice, the liability is considered to have a demand feature and is therefore shown at face value and classified in full as a current liability.

The right of residents to occupy the properties of the Operator (Council) are protected by the Statutory Supervisor restricting the ability of the Operator to fully control these assets without undergoing a consultation process with all affected parties. Residents do not have a right to participate in capital gains.

Provisions

KDC recognises a provision for future expenditure of uncertain amount or timing when there is a present obligation (either legal or constructive) as a result of a past event, it is probable that expenditures will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as an interest expense and is included in finance costs.

Landfill

KDC has a responsibility under its resource consent to provide ongoing maintenance and monitoring of the Kawerau landfill after the site is closed.

KDC recognises a liability for these costs. The long term nature of the liability means that there are inherent uncertainties in estimating costs that will be incurred and the provision has been estimated taking account of existing technology and using a discount rate of 3.0%.

Financial guarantee

A financial guarantee contract is a contract that requires KDC to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due.

Financial guarantee contracts are initially recognised at fair value. If a financial guarantee contract was issued in a standalone arm's length transaction to an unrelated party, its fair value at inception is equal to the consideration received. When no consideration is received, a provision is recognised based on the probability that KDC will be required to reimburse a holder for a loss incurred, discounted to present value. The portion of the guarantee that remains unrecognised, prior to discounting to fair value, is disclosed as a contingent liability.

Financial guarantees are subsequently measured at the initial recognition amount less any amortisation. However, if KDC assesses that it is probable that expenditure will be required to settle a guarantee then the provision for the guarantee is measured at the present value of the future expenditure.

KDC currently is not a guarantor for any group or individual.

Borrowings

Borrowings are initially recognised at their fair value. After initial recognition, all borrowings are measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

Equity

Equity is the community's interest in KDC and is measured as the difference between total assets and total liabilities. Equity is disaggregated and classified into the following components:

1. Accumulated Funds
2. Restricted and Council created reserves
3. Property revaluation reserves

Restricted and Council Created Reserves

Reserves are a component of equity generally representing a particular use to which various parts of equity have been assigned. Reserves may be legally restricted or created by KDC.

Restricted reserves are those subject to specific conditions accepted as binding by KDC and which may not be revised by KDC without reference to the Courts or a third party. Transfers from these reserves may be made only for certain specified purposes or when certain specified conditions are met.

Also included in restricted reserves are reserves restricted by Council decision. The Council may alter them without references to any third party or the Courts. Transfers to and from these reserves are at the discretion of the Council.

Property Revaluation Reserves

This reserve relates to the revaluation of property, plant and equipment to fair value.

Goods and Services Tax (GST)

All items in the financial statements are stated exclusive of GST, except for receivables and payables, which are stated on a GST inclusive basis. Where GST is not recoverable as input tax then it is recognised as part of the related asset or expense.

The net amount of GST recoverable from, or payable to, the Inland Revenue Department (IRD) is included as part of receivables or payables in the statement of financial position.

The net GST paid to or received from the IRD, including the GST relating to investing and financing activities, is classified as an operating cash flow in the statement of cash flows.

Commitments and contingencies are disclosed exclusive of GST.

Budget figures

The budget figures are those approved by the Council for 2021/22 in the 2021 - 2031 Long Term Plan. The budget figures have been prepared in accordance with NZ GAAP, using accounting policies that are consistent with those adopted by KDC for the preparation of the financial statements.

Cost allocation

KDC has derived the cost of service for each significant activity of KDC using the cost allocation system outlined below.

Direct costs are those costs directly attributable to a significant activity. Indirect costs are those costs, which cannot be identified in an economically feasible manner, with a specific significant activity.

Direct costs are charged directly to significant activities. Indirect costs are charged to significant activities using appropriate cost drivers such as actual usage, staff numbers and floor area.

Critical accounting estimates and assumptions

In preparing these financial statements KDC has made estimates and assumptions concerning the future. These estimates and assumptions may differ from the subsequent actual results. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Landfill aftercare provision

Note 17 provides information about the estimates and assumptions surrounding the landfill after care provision.

Infrastructural assets

There are a number of assumptions and estimates used when performing Depreciated Replacement Costs (DRC) valuations over infrastructural assets. These include:

- The physical deterioration and condition of an asset; for example the Council could be carrying an asset at an amount that does not reflect its actual condition. This is particularly so for those assets, which are not visible; for example stormwater, wastewater and water supply pipes that are underground. This risk is minimised by Council performing a combination of physical inspections and condition modelling assessments of underground assets.
- Estimating any obsolescence or surplus capacity of an asset; and

- Estimates are made when determining the remaining useful lives over which the asset will be depreciated. These estimates can be impacted by the local conditions; for example weather patterns and traffic growth. If useful lives do not reflect the actual consumption of the benefits of the asset then KDC could be over or under estimating the annual depreciation charge recognised as an expense in the statement of comprehensive revenue and expense. To minimise this risk, KDC's infrastructural asset useful lives have been determined with reference to the NZ Infrastructural Asset Valuation and Depreciation Guidelines published by the National Asset Management Steering Group and have been adjusted for local conditions based on past experience. Asset inspections, deterioration and condition modelling are also carried out regularly as part of the KDC's asset management planning activities, which gives KDC further assurance over its useful life estimates.

Experienced independent valuers perform the Council's infrastructural asset revaluations. Note 13 provides information about the estimates and assumptions surrounding infrastructure assets

Critical judgements in applying KDC's accounting policies

Management has exercised the following critical judgements in applying the KDC's accounting policies for the period ended 30 June 2022:

Classification of property

KDC owns a number of properties, which are maintained primarily to provide housing to pensioners. The receipt of market-based rental from these properties is incidental to holding these properties. These properties are held for service delivery objectives as part of the KDC's social housing policy. They are leased to and operated by the Kawerau Social Services Trust in order to meet these objectives. The properties are accounted for as property, plant and equipment.

Changes in accounting policies

Interests in other entities

In January 2017, the XRB issued new standards for interests in other entities (PBE 34 – 38). These new standards replaced the previous standards for interests in other entities (PBE IPSAS 6 – 8). These new standards have been applied in preparing the 30 June 2022 financial statements but there has been no material impact.

Standards issued and not yet effective and not early adopted

Standards and amendments issued but not yet effective, that have not been early adopted, and which are relevant to Council are:

PBE FRS 48 Services Performance Reporting

This standard is mandatory for annual report periods beginning on or after 1 January 2022. This standard replaces the service performance requirements of PBE PSAS 1 *Presentation of Financial Statements* and establishes new requirements for public benefit entities (PBEs) to select and present services performance information. Council has not yet determined how the application of PBE FRS 48 will affect its statement of service performance. Council has not adopted the standard for the 2021/22 financial year.

PBE IPSAS 41 Financial Instruments

PBE IPSAS 41 Financial instruments replaces both PBE IPSAS 29 - Financial Instruments and PBE IFRS 9 – Financial Instruments and is effective for financial years beginning on or after 1 January 2022.

The main changes compared to PBE IPSAS 29 that are relevant to the Council are:

- New financial asset classification requirements for determining whether an asset is measured at fair value or amortised cost

- A new impairment model for financial assets based on expected losses which might result in earlier recognition of impairment losses.

The Council intends to adopt PBE IPSAS 41 for the 30 June 2023 financial year. The Council has not yet assessed in detail the impact of the new standard.

Breach of Statutory Deadline

Kawerau Council was required under section 98 (7) (a) of the Local Government Act 2002 to complete and adopt its audited financial statements and service performance information by 31 December 2022. This time frame was not met because Audit New Zealand was unable to complete the audit due to auditor shortage and the consequential effects of Covid-19 including lockdowns.

2. Summary of Revenue and Expenditure for Groups of Activities

Revenue and expenditure for groups of activities

<u>2020/21</u>		<u>Budget</u>	<u>2021/22</u>
	Revenue		
976,436	Democracy	703,770	1,008,910
1,779,735	Economic Development	1,928,560	1,867,579
1,238,914	Environmental Services	1,264,180	1,312,917
2,308,831	Roading	2,177,120	1,991,253
232,609	Stormwater	313,480	116,982
1,254,093	Water	1,431,700	1,484,887
2,094,761	Wastewater	1,812,610	1,969,162
1,990,984	Solid Waste	1,935,030	2,053,524
5,226,349	Leisure and Community Services	4,188,660	4,360,737
17,102,712		15,755,110	16,165,951
(632,110)	Less internal revenue	(781,920)	(450,086)
16,470,602	Total revenue	14,973,190	15,715,865

<u>2020/21</u>		<u>Budget</u>	<u>2021/22</u>
	Expenditure		
993,279	Democracy	743,770	1,104,841
2,135,248	Economic Development	2,110,050	1,982,755
1,088,512	Environmental Services	1,264,180	1,078,517
2,115,777	Roading	1,990,370	1,956,727
311,494	Stormwater	331,560	257,484
1,552,022	Water	1,431,700	1,399,487
1,879,914	Wastewater	1,812,600	1,953,340
1,975,837	Solid Waste	1,935,030	2,418,873
3,773,646	Leisure and Community Services	4,283,880	4,030,277
15,825,729		15,903,140	16,182,301
(780,421)	Less internal expenditure	(\$821,960)	(355,509)
15,045,308	Total expenditure	15,081,180	15,826,792

3. Rates Revenue

<u>2020/21</u>		<u>2021/22</u>
9,499,229	General rate	10,027,049
	Targeted rates attributable to activities:	
273,788	Water Supply – including metered water	242,784
411,150	Wastewater	450,783
438,947	Refuse Collection	516,938
50,041	Rate penalties	58,231
<u>10,673,155</u>	Total revenue from rates	<u>11,295,785</u>

Rates revenue is shown net of rates remissions. KDC's rate remission policy allows KDC to remit rates (for the purpose of ensuring the rates charged to these properties are fair and equitable) shown below:

<u>2020/21</u>		<u>2021/22</u>
10,790,871	Total rates revenue	11,328,990
	Rates remissions	
(117,716)	Higher value properties/Farms	(33,205)
<u>10,673,155</u>	Rates revenue net of remissions	<u>11,295,785</u>

In accordance with the Local Government (Rating) Act 2002 certain properties cannot be rated for general rates. This includes schools, places of religious worship, public gardens & reserves. These non-rateable properties, where applicable, may be subject to targeted rates in respect of water, wastewater and refuse collection. Non-rateable land does not constitute a remission under KDC's remission policies.

4. Subsidies and Grants

<u>2020/21</u>		<u>2021/22</u>
1,149,605	Waka Kotahi – Roading Subsidies	674,232
162,389	Waka Kotahi – Subsidies for Stormwater	19,121
1,866,450	Grants for capital projects and events	825,359
<u>3,178,444</u>		<u>1,518,712</u>

There are no unfulfilled conditions or other contingencies attached to government grants received (2021 \$Nil).

5. Fees and charges and other revenue

<u>2020/21</u>		<u>2021/22</u>
1,644,801	User fees and charges	2,235,266
66,128	Petrol Tax	61,120
0	Election recoveries	0
306,274	Profit on disposal of inventory	364,178
537,419	Recoveries – Netball Pavilion	0
46,807	Amenities Fee	135,434
<u>2,601,429</u>	Total fees and charges and other revenue	<u>2,795,998</u>

6. Personnel Costs

<u>2020/21</u>		<u>2021/22</u>
5,041,564	Salaries & Wages	5,459,997
5,154	Employer contributions to multi-employer defined benefit plans	7,213

129,842	Employer contributions to Kiwisaver	137,151
<u>27,171</u>	Increase/ (decrease) in employee benefit liabilities	<u>98,824</u>
<u>5,203,731</u>	Total employee benefit expenses	<u>5,703,185</u>

7. Other expenses

<u>2020/21</u>		<u>2021/22</u>
38,314	General grants	47,356
1,615,096	Contractors	1,766,760
211,407	Insurance premiums	276,958
254,824	Consultants and legal fees	263,906
3,691	Impairment of receivables (note 9)	1,016
<u>4,188,195</u>	Other operating expenses	<u>4,117,826</u>
<u>6,311,527</u>		<u>6,473,822</u>

8. Interest revenue and finance costs

<u>2020/21</u>		<u>2021/22</u>
	Interest revenue:	
17,574	Term deposits	16,770
	Interest expense:	
0	Interest - other	0
<u>2,602</u>	Interest on finance leases	<u>1,472</u>
<u>14,972</u>	Net interest revenue	<u>15,298</u>

9. Cash and cash equivalents

<u>2020/21</u>		<u>2021/22</u>
3,816,631	Cash at bank and in hand	2,866,724
<u>800,000</u>	Short term deposits with maturities of 3 months or less	<u>800,000</u>
<u>4,616,631</u>	Total cash and cash equivalents	<u>3,666,724</u>

The carrying value of short-term deposits with maturity dates of 3 months or less approximates to their fair value.

10. Receivables

<u>2020/21</u>		<u>2021/22</u>
264,443	Rates receivable	336,190
336,726	Other receivables	248,115
372,523	Licence to occupy deposits	0
391,955	Sundry debtors	464,028
<u>124,168</u>	GST receivable	<u>294,352</u>
1,489,815		1,342,685
<u>(8,298)</u>	Less provision for impairment of receivables	<u>(9,313)</u>
<u>1,481,517</u>	Current portion	<u>1,333,372</u>
828,174	Receivables from non-exchange transactions	876,978
<u>653,343</u>	Receivables from exchange transactions	<u>456,394</u>
<u>1,481,517</u>		<u>1,333,372</u>

Movements in the provision for impairment of receivables are as follows:

<u>2020/21</u>		<u>2021/22</u>
4,607	At 1 July	8,298
3,691	Additional provisions made during the year	1,015
0	Receivables written off during the period	0
<u>8,298</u>	At 30 June	<u>9,313</u>

11. Inventory

<u>2020/21</u>		<u>2021/22</u>
	Inventories held for distribution (Non-Commercial):	
157,924	Water & sewerage reticulation spare parts	158,915
<u>54,531</u>	Other	<u>75,968</u>
212,455	Total inventories held for distribution (Non-commercial)	234,883
	Inventory held for sale (Commercial):	
<u>955,453</u>	Residential Developments – Te Ariki Place & Central Cove	<u>1,071,090</u>
955,453	Total inventory held for sale (Commercial)	1,071,090
<u>1,167,908</u>	Total	<u>1,305,973</u>

There has been no write-down of inventory during the year (2020/21 – \$nil)
No inventories are pledged as securities for liabilities (2020/21 - \$nil)

12. Other Financial Assets/Investments in CCOs

<u>2020/21</u>		<u>2021/22</u>
	Current portion	
	<i>Loans and receivables</i>	
<u>0</u>	Short term deposits with maturities of 4 -12 months	<u>0</u>
<u>0</u>	Total loans and receivables	<u>0</u>
	Non-current portion	
	<i>Investments - at cost</i>	
31,161	Investment in Civic Financial Services Limited (other financial assets)	31,161
<u>5,091</u>	Investment in BOPLASS Ltd - CCO	<u>5,091</u>
<u>36,252</u>		<u>36,252</u>

There were no impairment provisions or expenses for other financial assets.

Shares in Civic Financial Services Limited are held at cost. The asset backing for these shares at 31 Dec 2021 was \$0.99 (2020 - \$0.96).

Maturity analysis and effective interest rates

The maturity dates for all other financial assets with the exception of equity investments, and advances to, subsidiaries and associates are as follows:

<u>2020/21</u>	Short Term Deposits	<u>2021/22</u>
<u>0</u>	Average investment	<u>0</u>
<u>0</u>		<u>0</u>

13. Property, plant and equipment 2022

Core asset disclosures

Valuation

Land and Buildings

Council's operational and restricted land and buildings were revalued by independent registered valuer Grant Utteridge of Telfor-Young Limited as at 30 June 2022. These assets were revalued on the basis of depreciated replacement cost in accordance with PBE IPSAS 17. Non-specialised buildings (residential and commercial) were valued using market based evidence (income and lease data). Specialised assets were valued on the basis of depreciated cost replacement method.

Depreciated replacement cost is determined using a number of significant assumptions, which include:

- The replacement asset is based on the replacement with modern equivalent assets with adjustments where appropriate for obsolescence due to over-design or surplus capacity
- The replacement cost is derived from recent construction contracts of similar assets and Property Institute of New Zealand cost information
- For the Council's earthquake-prone buildings that are expected to be strengthened, the estimated earthquake-strengthening costs have been deducted off the depreciated replacement cost
- The remaining useful life of assets is estimated after considering factors such as the condition of the assets, future maintenance and replacement plans, and experience with similar buildings.
- Straight-line depreciation has been applied in determining the depreciated replacement cost value of the asset

Infrastructural Assets

Council's Infrastructural assets were revalued by independent registered valuer Mike Morales of Bayleys Ltd, on the depreciated replacement cost basis as at 30 June 2022 in accordance with NZ IAS 16. These assets were considered to be specialised as they were unlikely to be sold on the open market.

The depreciated replacement cost is determined using a number of significant assumptions, which include:

- Estimating any obsolescence or surplus capacity of the asset
- Estimating the replacement cost of the asset. The replacement cost is derived from recent construction contracts in the region for similar assets
- Estimates of the remaining useful life over which the asset will be depreciated. These estimates can be affected by the local conditions. For example, weather patterns and traffic growth. If useful lives do not reflect the actual consumption of benefits of the asset, Council could be over or underestimating the annual depreciation charge recognised as an expense in the statement of comprehensive revenue and expense. To minimise this risk, infrastructural asset useful lives have been determined with reference to New Zealand Infrastructural Asset Valuation and Depreciation Guidelines published by the National Asset Management Steering Group, and have been adjusted for local conditions based on past experience. Asset inspections, deterioration, and condition modelling are also carried out regularly as part of asset management planning activities, which provides further assurance over useful life estimates.

The library collection was initially valued at deemed cost in accordance by Beca Carter Hollings and Ferner (Valuers) in 1991 and since then additions have been recorded at cost and depreciation charged on the diminishing value basis.

Disposals

The net loss on disposal of property, plant and equipment \$130,173 (2021 - \$152,420) has been recognised in the statement of comprehensive revenue and expense.

Leases

The net carrying amount of plant and equipment held under finance leases is \$339 (2021 - \$424).

Impairment

There were no impairment losses incurred for the year to 30 June 2022 (2021 – nil).

Restrictions

Land and buildings in the Restricted Assets category are subject to either restrictions on use or disposal or both. This includes restrictions from legislation (such as a reserve under the Reserves Act 1977) or other restrictions (such as land or buildings under a bequest or donation that restricts the purpose for which the assets can be used). No restricted assets are used as security for Council liabilities.

Core infrastructure asset disclosure

Included within the Council infrastructure assets (above) are the following core Council assets.

2022	Closing book value	Additions (constructed)	Additions (transferred)	Most recent replacement cost estimate for revalued assets (30 June 2022)
Water Supply:				
-Treatment plant	1,230,780	51,106	0	2,173,980

167,795	Other activities	0	189,998
<u>3,375,028</u>	Total	<u>3,238,240</u>	<u>3,518,140</u>

16. Payables and deferred revenue

<u>2020/21</u>	Current portion: Payables and deferred revenue under exchange transactions:	<u>2021/22</u>
1,636,410	Trade payables	557,051
371,176	Accrued expenses	438,087
5,714	Revenue in advance	5,714
<u>2,013,300</u>	Total	<u>1,000,852</u>
	Payables and deferred revenue under non-exchange transactions:	
858,453	Rates fees and grants received in advance	989,657
47,185	Rates due to BOP Regional Council	53,841
372,523	Licence to occupy deposits – Covent Trustees	0
141,817	Deposits and bonds	183,038
<u>1,419,978</u>	Total	<u>1,226,536</u>
<u>3,433,278</u>	Total payables and deferred revenue	<u>2,227,388</u>
	Non-current portion: Payables and deferred revenue under exchange transactions:	
<u>\$148,571</u>	Income in advance	<u>\$142,857</u>

17. Provisions

<u>2020/21</u>	Current provisions are represented by:	<u>2021/22</u>
10,000	Landfill aftercare provision	10,000
	Non-current provisions are represented by:	
28,286	Landfill aftercare provision	19,135

<u>2020/21</u>		<u>2021/22</u>
	Landfill aftercare provision	
46,086	Opening balance	38,286
(9,593)	Amount utilised	(24,813)
2,200	Discounting changes	849
(407)	Increase/(Decrease) in provision	14,813
38,286	Closing Balance	29,135

KDC gained a resource consent in late 2002 to operate the Kawerau Landfill. KDC has responsibility under the resource consent to provide ongoing maintenance and monitoring of the landfill after the site is closed.

The landfill closed in July 2006 and the cash outflows for landfill post-closure are expected to occur until 2024/25.

The long-term nature of the liability means that there are inherent uncertainties in estimating costs that will be incurred

The provision, taking into account existing technologies and known legal requirements, is estimated at \$30,000 (2021 - \$40,000) over the remaining life of the resource consent. This liability has been discounted to a current value of \$29,135 (2021 - \$38,286) using a discount rate of 3.00% (2021 – 3.0%).

18. Employee Entitlements

<u>2020/21</u>		<u>2021/22</u>
489,461	Annual leave	581,602
43,963	Retirement gratuities	49,327
160,540	Accrued salaries	161,859
693,964	Total employee benefit liabilities	792,788
	Comprising:	
650,001	Current	743,461
43,963	Non-current	49,327
693,964	Total employee benefit liabilities	792,788

Note: No provision has been made for sick leave liability as the number of sick days taken by all employees during 2021/22 did not exceed the sick leave entitlement for the year. The present value of retirement gratuities, depends on a number of factors and are determined on an actuarial basis. Two key assumptions are used in calculating this liability: the discount rate and the salary inflation factor. Any changes to these assumptions will affect the carrying amount of the liability. A weighted average discount rate of 3% (2021 3%) and an inflation factor of 2.0% (2021 2.0%) were used.

19. Borrowings and other financial liabilities

<u>2020/21</u>		<u>2021/22</u>
	Current	
14,872	Finance leases	5,044
14,872	Total current borrowings	5,044
	Non-current	
5,044	Finance leases	0
5,044	Total non-current borrowings	0

Security

KDC's loans are secured over either targeted or general rates of the District.

KDC currently has no secured loans.

Lease liabilities are effectively secured, as the rights to the leased asset revert to the lessor in the event of default.

Internal borrowings

Information about internal borrowings is provided in note 21 of the annual report. Internal borrowings are eliminated on consolidation of activities in the financial statements.

Analysis of finance lease liabilities

<u>2020/21</u>		<u>2021/22</u>
	Total minimum lease payments are payable	
16,276	Not later than one year	5,441
<u>5,441</u>	Later than one year and not later than five years	<u>0</u>
21,717	Total minimum lease payments	5,441
<u>(1,800)</u>	Future finance charges	<u>(397)</u>
<u>19,917</u>	Present value of minimum lease payments	<u>5,044</u>
	Present value of minimum lease payments are payable	
14,872	Not later than one year	5,044
<u>5,045</u>	Later than one year and not later than five years	<u>0</u>
<u>19,917</u>	Total	<u>5,044</u>

Description of material leasing arrangements

KDC has entered into finance leases for the phone system and the printer/copiers. The net carrying amount of the leased items within each class of property, plant and equipment is shown in Note 13.

The finance leases can be renewed at KDC's option with the agreement of the lessor, with rents equal to the original terms. KDC does not have the option to purchase the assets at the end of the lease terms.

20. Retirement Village – Liability to residents

<u>2020/21</u>		<u>2021/22</u>
1,739,500	Residents liability – refundable occupation right agreements –	3,955,000
698,693	Residents liability – refundable amenities fee	1,512,759
<u>2,438,193</u>	Total refundable occupational rights agreements	<u>5,467,759</u>

Refundable Occupational Right Agreements and Amenity fees are liabilities for liquidity purposes as the entity does not have an unconditional right to defer these. A terminating resident occupational license deposit is repaid once the license has been assigned to an incoming resident.

It is expected that the new residents deposits will generally exceed the repaid residents deposits and will represent a positive cash flow for Council.

Council created reserve funds are held to fund the required renewals for each activity and to ensure they are used for that purpose. Surpluses held in reserves are credited with interest. The Council created reserves are discretionary reserves which are funds set aside for the renewal of assets in

each activity. Council also has revaluation reserves, which reports the amount that Council's assets have increased in value.

23. Internal Loans

Internal Loans are used to fund capital works from reserves where there is insufficient funds set aside in the specific council created depreciation reserve. The internal loans are charged approximately the same interest rate as Council's average return on bank investments and the remaining repayment periods for these loans ranges between 1 and 15 years. Internal loan costs (interest and principal) are funded by the activity for which the loan was raised and the corresponding revenue is recognised in interest revenue. Internal borrowings are eliminated on consolidation of activities in Council's financial statements.

2020/21		Internal Loans	2021/22		
Interest \$	Loans \$		Interest \$	Repayments \$	Loans \$
		Solid Waste:			
3,762	82,469	Transfer Station Loan	1,943	(19,254)	63,215

73,801	1,789,178	Total	44,232	(80,494)	1,708,684

24. Capital commitments and operating leases

At the 30 June 2022 there was outstanding contracts for work still to be done totaling \$2,923,800 (2021 \$886,951).

Council leases the Tarawera Sports Clubrooms which is situated on Tarawera Park reserve to the Kawerau Sports Club Inc. The lease is for a period of 5 years, and expires 28 February 2027.

<u>2020/21</u>		<u>2021/22</u>
	Total minimum lease payments	
3,562	Not later than one year	5,316
0	Later than one year and not later than five years	19,510
<u>3,562</u>	Total minimum lease payments	<u>24,826</u>

25. Contingencies

Council currently has no outstanding loan guarantees for community organisations (2021 - \$Nil).

26. Related Party Transactions

Related party disclosures have not been made for transactions with related parties that are within a normal supplier or client/recipient relationship on terms and conditions no more or less favourable than those that it is reasonable to expect Council would have adopted in dealing with the party at arm's length in the same circumstances.

28. Staffing Levels and Remuneration

As at 30 June 2022 there were 62 staff which received annual salaries of less than \$60,000 (2021 54 employees)

<u>2020/21</u>	<u>Total annual remuneration (in bands)</u>	<u>2021/22</u>
No of Staff	(Total remuneration includes non-financial benefits provided to employees)	No of Staff
54	Salary < \$60,000	62
15	Salary \$60,000 - \$79,999	14
7	Salary \$80,000 - \$99,999	6
5	Salary \$100,000 - \$139,999	5
1	Salary \$140,000 - \$229,999	3
82	Total	90

<u>2020/21</u>		<u>2021/22</u>
52	Number of staff which were full time employees (>40 hours per week)	62
18.7	Number of part time staff (ie < 40 hours per week) expressed as FTE	15

29. Severance Payments

During the year, there were no severance payments made to Council employees. (2021 \$0)

30. Events after balance date

Legislation passed in December 2022 established four publicly owned water services entities to carry out responsibilities for the delivery of three waters services and related assets and liabilities currently controlled by local authorities. A water services Bill to enable the transfer of these assets and liabilities to the water services entities, is currently before Parliament. Until the Bill is passed, the financial impact of the transfer on the District Council, remains uncertain.

On 13 April 2023, the Government announced further proposed amendments to the number of water services entities and staggering their establishment dates starting from early 2025, with all the water services entities to be established by 1 July 2026. The timing of the transfer of assets and liabilities is therefore uncertain until amendments to existing legislation are passed.

High level guidance has been issued that outlines which assets would transfer to the new entity, however there is not yet enough clarity to be able to quantify the financial impacts on asset values, revenue and associated debt with any certainty. As at 30 June 2022, the total stormwater infrastructure assets were \$5,844,540 (2021: \$4,997,173), total water infrastructure assets were \$13,260,630 (2021: \$8,646,129) and total wastewater infrastructure were \$13,765,260 (2021: \$11,251,196). Not all of these assets may transfer, particularly assets that are used by other parts of the Council. Other non-infrastructure assets may also transfer. The fair values of these assets have not been adjusted to reflect the transfer of assets. Once the transfer has been legislated and details around the mechanisms for the transfer of the water assets and any compensation has been established, the values of these assets may require adjustment

The other event after balance date included the increase in the OCR (Official Cash Rate) to 4.25% (and predicted to be 5.5% in 2023) by the Reserve Bank Governor which will impact on Council's finance costs.

(2020/21: Government passed legislation during October 2021 to mandate the transfer the 3 waters assets to the four new entities by June 2024. While the impacts have not been quantified they are expected to be significant for Council and the community. The other event was the lockdown of the district (level 3) due to the COVID-19 outbreak. Council had to close a number of facilities and activities, apart from essential services during this period and staff were encouraged to work from home where possible)

31. Financial Instruments

Financial instrument categories

The accounting policies for financial instruments have been applied to the items below:

<u>2020/21</u>		<u>2021/22</u>
	Financial Assets	
	Loans and receivables	
4,616,631	Cash and cash equivalents	3,666,724
1,357,349	Debtors and other receivables	1,048,333
<u>0</u>	Held to maturity investments of 4-12 months	<u>0</u>
<u>5,973,980</u>	Total loans and receivables	<u>4,715,057</u>
	Fair value through other comprehensive revenue and expense	
<u>36,252</u>	Investments in unlisted shares	<u>36,252</u>
<u>36,252</u>	Total fair value through other comprehensive revenue and expense	<u>36,252</u>
<u>6,010,232</u>	Total financial assets	<u>4,751,309</u>

Financial Liabilities		
Financial liabilities at amortised cost		
2,569,111	Creditors and other payables	1,232,017
<u>14,872</u>	Borrowings	<u>5,044</u>
<u>2,583,983</u>	Total financial liabilities at amortised cost	<u>1,237,061</u>
Non-current liabilities		
<u>5,045</u>	Borrowings	<u>0</u>
<u>5,045</u>	Total non-current liabilities	<u>0</u>
<u>2,589,028</u>	Total financial liabilities	<u>1,237,061</u>

32. Explanation of major variances against budget

Explanations for major variations from KDC's estimated figures in the Long Term Plan for 2021/22 are as follows:

Statement of comprehensive revenue and expense

The significant variances from the estimated figures include: additional income for subsidy and grants resulting from: "Pathways to Work" and "Mayor's Taskforce for Jobs" programmes and additional "other" revenue from disposal of sections at Central Cove.

There was additional expenditure for the employment schemes, waste disposal cost increases and removal of contaminated material from Central Cove.

Descriptions of variances compared to budget are also included in the group Funding Impact Statements.

Statement of financial position

Cash and cash equivalents and other financial assets overall, were lower than budget due to additional expenditure for waste disposal and removal of contaminated material.

Non-current assets (as well as reserves) were higher than budget due to the revaluation of assets to 30 June 2022.

Liabilities overall were higher than the budget due to the retirement village resident's liability recognition – this had anticipated to be an asset sale.

Statement of cash flow

Subsidies and grants were higher than budget because additional grants received for employment programmes.

Receipts from fees and charges were lower than budget however increased receipts from other sources offset this.

Payments to employees were lower than budget because there were some vacancies during the year.

There were 10 retirement units sold during the year, whereas the budget had anticipated 11 units being sold.

Also, Council did not raise any loan funds as they were not needed during 2021/22.

33. Rating Base

<u>30 June 2021</u>		<u>30 June 2022</u>
2,983	Number of rating units	2,987
\$963,609,400	Capital value of rating units	\$1,366,179,500
\$353,242,000	Land value of rating units	\$515,146,000

34. Insurance Disclosure

The following information relates to the insurance of Council assets as at 30 June:

<u>30 June 2021</u>		<u>30 June 2022</u>
60,399,256	Total value of all Council assets covered by insurance contracts	81,153,471
136,419,764	Maximum amount to which insured assets are insured	136,419,764
0	Total value of all Council assets covered by financial risk sharing arrangements (Council withdrew from this arrangement on 1 June 2014)	0
0	Maximum amounts available to Council under financial risk sharing arrangements. Council does not have any assets that are self-insured (2021 Nil)	0

KAWERAU DISTRICT COUNCIL DISCLOSURE STATEMENTS FOR YEAR ENDING 30 JUNE 2022

PURPOSE OF THIS STATEMENT

The purpose of this statement is to disclose the council's financial performance in relation to various benchmarks to enable the assessment of whether the council is prudently managing its revenues, expenses, assets, liabilities, and general financial dealings.

The council is required to include this statement in its annual report in accordance with the Local Government (Financial Reporting and Prudence) Regulations 2014 (the regulations). Refer to the regulations for more information, including definitions of some of the terms used in this statement.

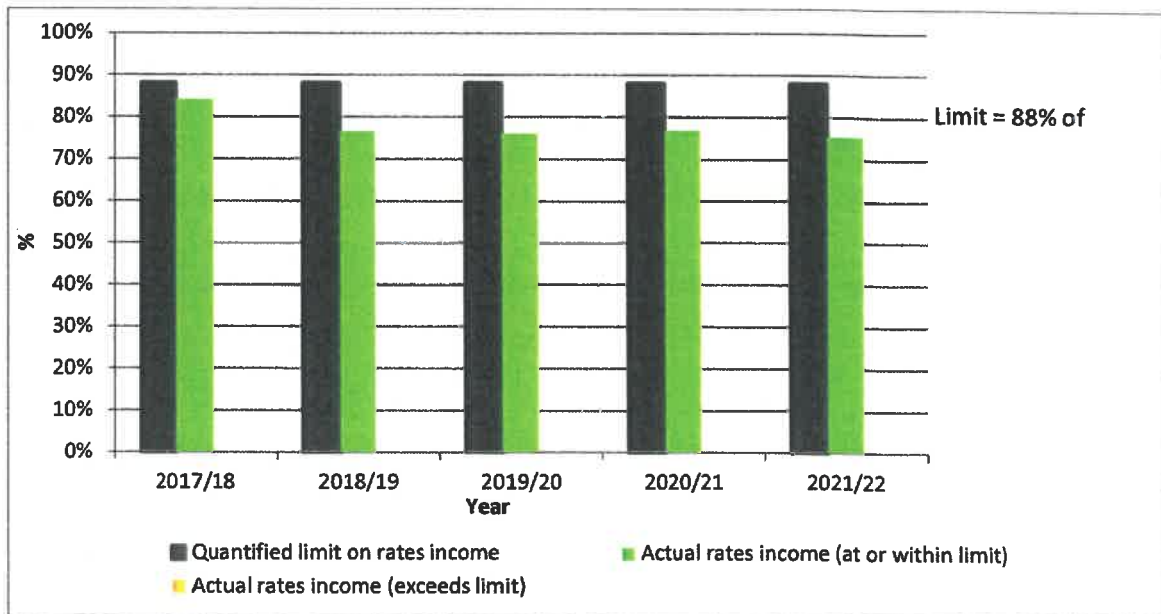

RATES AFFORDABILITY BENCHMARK

The council meets the rates affordability benchmark if—

- its actual rates income equals or is less than each quantified limit on rates; and
- its actual rates increases equal or are less than each quantified limit on rates increases.

Rates (income) affordability

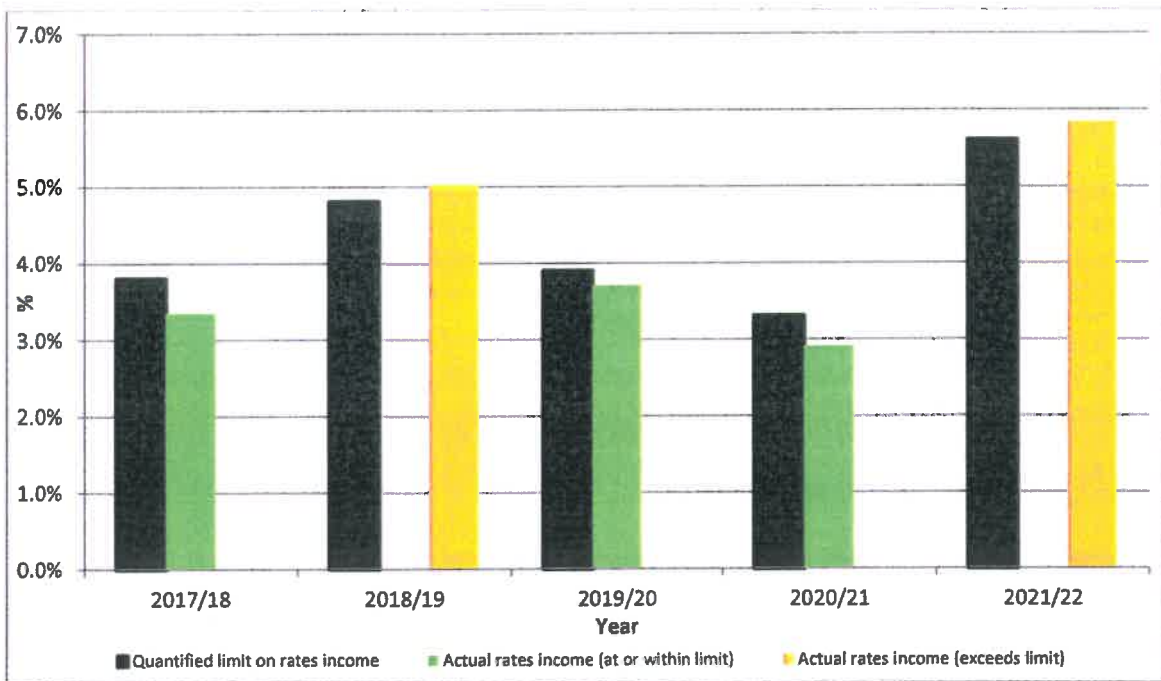

The following graph compares the council's actual rates income with a quantified limit on rates contained in the financial strategy included in the council's long-term plan. The quantified limit is 88% of Total Budgeted Revenue.

Rates (increases) affordability

The following graph compares the council's actual rates increases with a quantified limit on rates increases included in the financial strategy in council's long-term plan. The quantified limit is the underlying average rate of inflation (for Council costs) plus 2%. Council has used the actual rate of inflation each year (plus 2%), rather than budgeted inflation, as its quantified limit on rates.

Actual rates income is the rates revenue reported in the annual report compared to the rates revenue for the previous year.

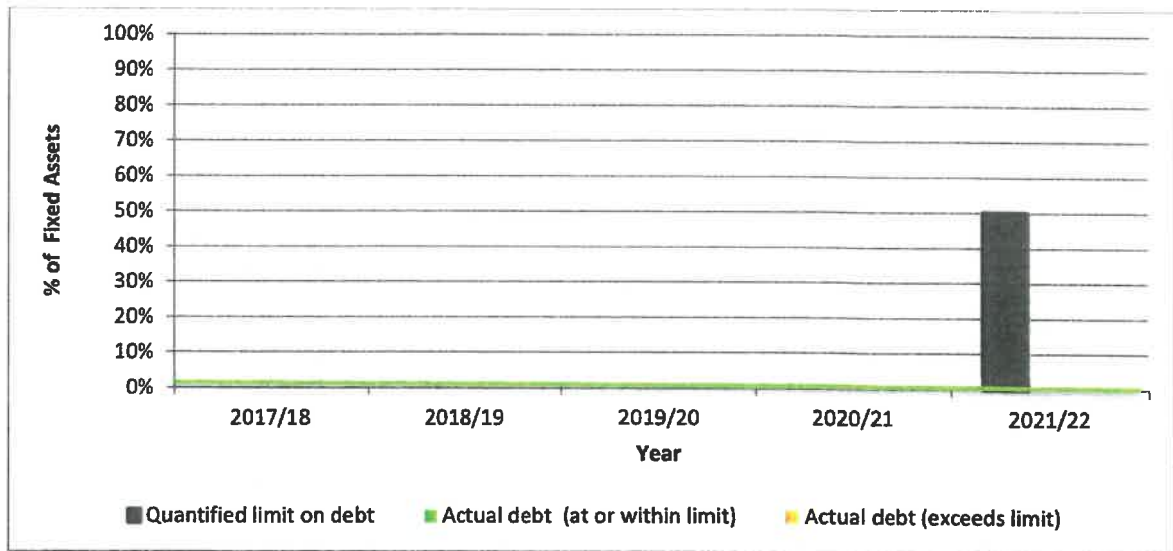

Comment:

Prior to adopting the 2018 – 2028 Long Term Plans, Council reviewed the levels of service for all its activities. Following this review it was determined that there needed to be an improved level of service for some of the Council activities, and approved additional resourcing to improve the level of service. This resulted in the overall rate increase for 2018/19 exceeding the qualified limit as set in the financial strategy. Also, for 2021/22 Council exceeded the limit due to some increased level of service and rising costs.

DEBT AFFORDABILITY BENCHMARK

The council meets the debt affordability benchmark if its actual borrowing is within each quantified limit on borrowing.

The following graph compares the council's actual borrowing with a quantified limit on borrowing stated in the financial strategy included in the council's long-term plan. The quantified limit for the years to 2020/21 was \$0 (excluding finance leases). The quantified limit on debt for 2021/22 is 50% of fixed assets (\$53.3 million).

Comment:

Council does not have any debt, except for two finance leases, as it has sufficient funds to meet all anticipated expenditure. KDC entered into finance lease agreements for the acquisition of its copier/printers and telephone hardware. Finance leases are included as debt in Council's financial statements.

BALANCED BUDGET BENCHMARK

The following graph displays the council's revenue (excluding development contributions, financial contributions, vested assets, gains on derivative financial instruments, and revaluations of property, plant, or equipment) as a proportion of operating expenses (excluding losses on derivative financial instruments and revaluations of property, plant, or equipment). The council meets this benchmark if its revenue equals or is greater than its operating expenses.

Comment:

Council does not fully fund depreciation for roads that are subject to New Zealand Transport Agency (NZTA) subsidies. The assumption has been made that when roads are due for renewal, NZTA will contribute towards the cost on the currently agreed rate of 75%. The benefit of not funding the portion

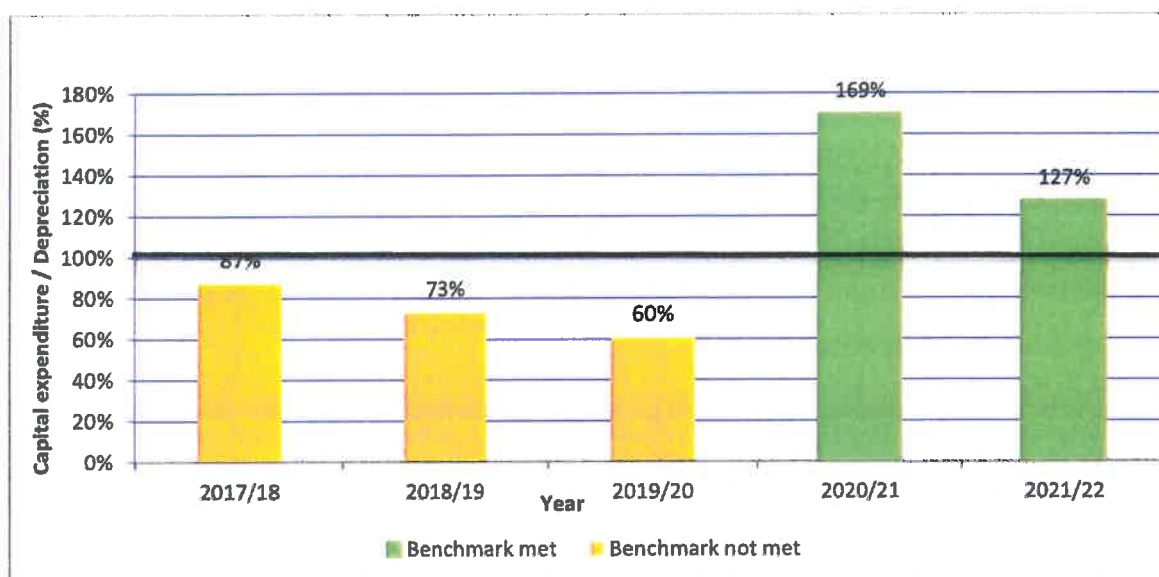

of depreciation where Council expects NZTA subsidies on asset renewals is that ratepayers are not funding depreciation that it believes is unlikely to be required in the future.

Council also does not fully fund depreciation for some buildings which will not be replaced, at least not as they are now.

The non-critical assets include the swimming pool complex, Town Hall, Concert Chambers, Library building, District Office, Tarawera Park Amenity Building, Ron Hardie Recreation Centre, Council Depot and pensioner housing. The advantage of not funding depreciation on non-critical buildings is that the community is not funding depreciation on assets that are unlikely to be replaced with buildings of equivalent value.

ESSENTIAL SERVICES BENCHMARK

The following graph displays the council's capital expenditure on network services as a proportion of depreciation on network services. The council meets this benchmark if its capital expenditure on network services equals or is greater than depreciation on network services.

Comment:

The Kawerau town was built over a period of about 30 years from 1955 to 1987. With asset lives of up to 80 years, the majority of planned renewals will start occurring during the next 15 - 20 years. Council resolved to replace its AC and steel water pipes over a period of 6 years and commenced this programme in 2020/21 which is why network capital expenditure is higher for that and the following year when compared to previous years.

The following table broadly illustrates the age of Councils infrastructure.

Zone	Area	Built (Approx.)	Age (Approx.)
1	Area bounded by State Highway 34 and River Road up to overflow stream and the swimming pool complex and including Ward Street and northern half of Bell, Massey Street area.	1955-58	64 years
2	Cobham Drive and adjoining streets, Porritt Drive and the balance of the Bell, Massey Street area.	1963-68	54 years

3	River Road (Pump house to Fenton Mill Road), Fenton Mill Road, Valley Road (roundabout to SH 34).	1971-75	47 years
4	Valley Road (roundabout to unsealed section) and adjoining side streets.	1976-80	42 years
5	Hardie and Beattie Roads and adjoining side streets.	1983-87	35 years
6	Geothermal area (Rec. Centre, Pool, Bowling Club, TAB carpark).	1962	59 years

DEBT SERVICING BENCHMARK

The following graph displays the council's borrowing costs as a proportion of revenue (excluding development contributions, financial contributions, vested assets, gains on derivative financial instruments, and revaluations of property, plant, or equipment).

Because Statistics New Zealand projects the council's population will grow more slowly than the national population growth rate, it meets the debt servicing benchmark if its borrowing costs equals or is less than 10% of its revenue.

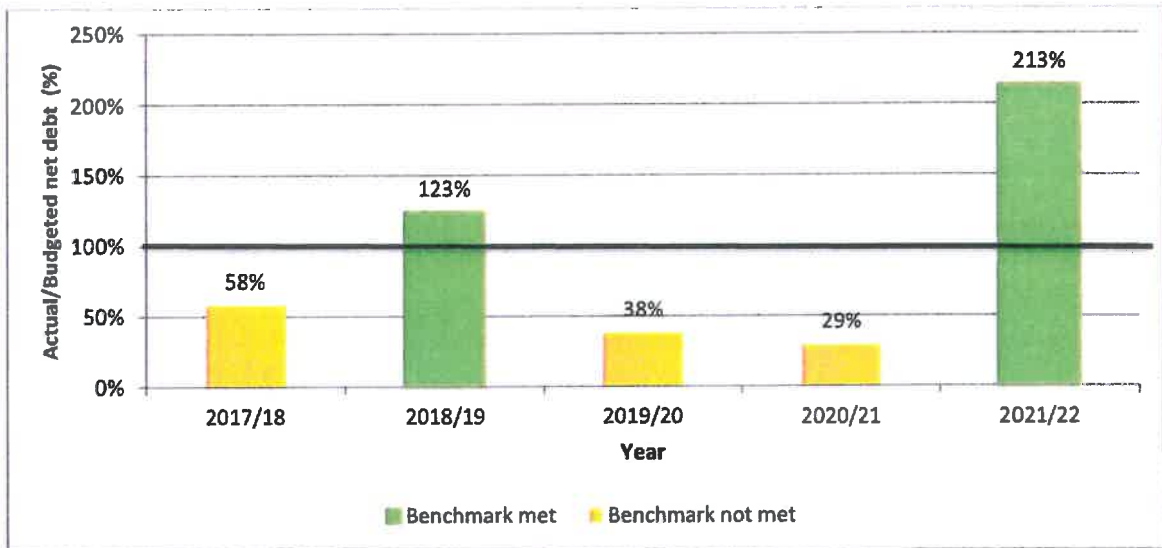

Comment:

Council's debt servicing relates to finance charges on leased assets (telephones and copiers/printers).

DEBT CONTROL BENCHMARK

The following graph displays the council's actual net debt as a proportion of planned net debt. In this statement, net debt means financial liabilities less financial assets (excluding trade and other receivables).

Comment:

Kawerau District Council's financial assets exceed its financial liabilities at 30 June 2022 whereas the planned net debt in the Long Term Plan was expected to be lower.

OPERATIONS CONTROL BENCHMARK

This graph displays the council's actual net cash flow from operations as a proportion of its planned net cash flow from operations.

Comment:

The council meets the operations control benchmark if its actual net cash flow from operations equals or is greater than its planned net cash flow from operations. For 2021/22, Council's actual net cash flow from operations was lower than budget due to additional expenditure needed for solid waste operations.

Groups of Activities

STATEMENTS OF SERVICE PERFORMANCE & FUNDING IMPACT STATEMENTS

Council is responsible and accountable for giving effect to identified Community Outcomes and priorities in an efficient and effective manner. Council operations have been divided into nine activity groups.

Each activity group has a limited amount of funding and resources to achieve the identified outcomes.

Council has a total 62 performance targets for all groups for the 2021/22 year (excluding those which were not applicable) and managed to achieve 40 (64.5%) of them (2020/21 67.9%).

This section of the Annual Report details:

- The achievement of both financial and performance targets for the activities and their respective functions.
- The reasons for any significant variance between actual service provision and expected service provision.
- The reasons for any significant changes in the capital acquisitions and replacement programmes.

QUALITY

Each activity group includes performance measures which incorporate elements of quality. Quality processes are a standard feature of management control systems.

Specifically:

- **Capital Works** - are constructed to design specifications. Inspection of works is undertaken by suitably qualified engineers.
- **Maintenance Works** - are undertaken by employees or by contract under the supervision of suitably qualified and experienced engineers and monitored thereafter in accordance with maintenance programmes.
- **Regulatory Functions** - are undertaken by suitably qualified and experienced employees in accordance with legislative requirements.

SUMMARY OF PERFORMANCE FOR YEAR

During the 2021/22 year, Council achieved 40 (65%) of the non-financial performance targets.

Activity	2021/22			2020/21
	No. of targets	End of Year Result		Achievement Rate
Democracy	3	1	33%	80%
Economic & Community Development	5	4	80%	86%
Environmental Services	11	7	64%	56%
Roading	7	4	57%	50%
Stormwater	3	3	100%	100%
Water Supply	12	10	83%	75%
Wastewater	7	3	43%	57%
Solid Waste Management	2	1	50%	100%
Leisure and Recreation	12	7	58%	63%
TOTAL*	62	40	65%	68%

*excludes the N/A targets

The following actions are being taken to address the targets that were not achieved:

Democracy

50% (target >90%) of the annual works programme was completed for the year to 30 June 2022. The reason the target was not achieved was due to the disruptions caused by the COVID-19 pandemic, and the resulting backlog of projects as well as shortage of materials faced by contractors. Also public forums were not held for the year due to the COVID restrictions.

Economic and Community Development

Covid-19 impacted on the delivery of events during December 2021 otherwise all targets would have achieved.

Environmental Services

There were four targets that were not achieved:

- response times for dog complaints
- response times to noise complaints
- satisfaction with building consent process
- response times to other environmental health complaints

The reason that most of these targets were not achieved was due to resourcing shortages. Some of these shortages will be addressed for the 2022/23 year, so it is anticipated there will be less targets not achieved for the next financial year.

Roading

Council did not achieve the targeted timeframes for responding to all streetlight outages. Council continues to work with the contractor to address the delays.

Also Council resurfaced 1.2% of its sealed roads during the year (Target: 5.0% - 6.5%) and the road roughness score was 93% (Target: >95%).

Waka Kotahi (NZTA) has reviewed the quality of the district's roads and considered them to be in very good order and therefore Council does not need to resurface roads as often as it has been doing.

Water Supply

Council received 2.9 complaints per 1,000 connections about water pressure during the year (target < 2 per 1,000). Staff are working with consultants to increase the water pressure for specific properties. Also there was 2 technical breaches for protozoal compliance, which will be remedied for the future.

Wastewater

Council received fourteen infringement notices and consequently did not comply with the resource consent for wastewater due to material and volumes that were received from the dairy factory. Council has since entered to an agreement with the dairy factory to ensure that the resource consent is complied with and no further infringements are received, otherwise Council will stop any further trade waste being sent to the waste water treatment plant.

Also Council had 4 dry weather during the year (Target: 0) due a sewer line collapse. Council has replaced the sewer line and is carrying an assessment programme to determine the remaining life of its pipes. Finally, Council took longer than 8 hours to resolve a sewer overflow due to the deterioration of the pipe, which was subsequently renewed.

Leisure and Recreation

Council achieved 58% of its targets for leisure and recreation during the year.

The ongoing COVID-19 restrictions resulted in some targets not being achieved. Also resourcing shortages and repairs needed for the pool contributed to other targets not being achieved.

DEMOCRACY

ACTIVITIES IN THE GROUP AND IMPACT ON COMMUNITY WELL-BEINGS

The Democracy group of activities is the political arm of Kawerau District Council. It includes the following activities:

The Council

Comprising the Mayor and eight Councillors, Council meets monthly to develop and monitor policy, objectives and outcomes for the District. The Mayor and eight Councillors are elected by registered electors in the District every three years.

Regulatory and Services Committee

This standing committee is responsible for matters relating to Council regulation and services. The Committee meets monthly on alternate fortnights to Council meetings. All nine Elected Members of Council are members of the Regulatory and Services Committee, which then elects a Chairperson at the commencement of each triennium.

Audit & Risk Committee

The responsibilities of the audit and risk committee include: ensuring Council fulfils its legal responsibilities, monitors existing corporate policies and recommends new policies, provides a communication link between management, council and auditors, monitors performance and internal controls and ensures that Council's risk is appropriately managed.

Kawerau Youth Council

Established in 2009, the Youth Council aims to create confident youth leaders who will monitor successive generations. Members meet each month to organise activities and provide a voice on matters affecting youth in our District. The Youth Council has up to 20 members aged between 14 and 24 years, for whom nominations are called each year.

Community Engagement

The consideration of community views is fundamental to Council decision making. Legislation requires Council to use a special consultative procedure in some circumstances. A community consultation process contained in Council's consultation policy is used to seek input into other decisions.

Local Elections

Council is responsible for holding the elections for District Council representatives every three years, concurrent with Regional Council and District Health Board elections.

Impact on Community Well-beings

The democracy activity impacts on all four well-beings (Social, Cultural, Environmental and Economic) as this activity is responsible for the provision, levels of service and overview of all council activities. Also it ensures that Council provides sustainable services which have minimal impact on the environment, that are affordable for the community and finally making sure that iwi is consulted and provided a forum that allows participation in Council's decision-making.

NATURE AND SCOPE

Democracy involves the elected members making decisions and advocating on behalf of the needs and interests of the Kawerau Community both in the present and for the future.

CONTRIBUTION TO COMMUNITY OUTCOMES

The Democracy group of activities contributes principally to Kawerau's Community Outcomes of:

- *Council advocates within and beyond the district and governs for community needs and interest.*
- *Council embraces involvement from all sectors of the community in its democracy and decision making.*

IDENTIFIED EFFECTS OF THIS GROUP OF ACTIVITIES ON THE COMMUNITY

The Democracy activity includes balancing the needs and wants of community members when making decisions.

Council endeavours to achieve the best outcome for the community and maximise the community's wellbeing.

THE YEAR IN SUMMARY

Highlights for the Democracy group of activities in 2021/22 were:

- Preparation, consultation and adoption of the 2022/23 Annual Plan
- The adoption of the 2020/21 Annual Report
- Holding citizenship ceremonies and welcoming new residents to the community
- Adoption of a number of policies and strategies throughout the year for the betterment of the town and residents

In 2021/22, Council used the special consultative procedure and/or community consultation process when adopting the following:

- 2022/23 Annual Plan
- Dog Control – Policies and Practices

Other policies and strategies that were adopted during the year, included:

- Representation for the 2022 and 2025 Council elections
- Council's Fraud Policy
- Council's Code of Conduct
- Eastern Bay Road Safety Committee – Terms of Reference

KAWERAU COMMUNITY AWARD CEREMONY

DEMOCRACY

PERFORMANCE

During the year there were eleven ordinary Council meetings, eleven Regulatory and Services Committee meetings, five meetings of the Audit and Risk Committee and eight Youth Council meetings.

Levels of Service	Measures	Target 2021/22	Results 2020/21	Results 2021/22	Comment

There was no capital expenditure for this activity in the current year.

ECONOMIC AND COMMUNITY DEVELOPMENT

ACTIVITIES IN THE GROUP AND IMPACT ON COMMUNITY WELLBEINGS

Economic Development

Council is involved in economic development activity at the sub-regional level and is also taking a leadership role in local economic development initiatives.

Council works closely with the Opotiki and Whakatane District Councils and the BOP Regional Council as an active member of the Eastern BOP economic development agency, Toi EDA.

Events Management

Council supports a diverse range of events in the District and provides a strategic framework to meet future needs and demands. Council's involvement in events management takes advantage of and showcases the District's resources and helps to build capability and capacity of Community volunteers.

Grants and Funding

Council administers various grants which help to:

- Support Community organisations to help maintain Community services
- Promote artistic development
- Assist event organisers to organise new and innovative Community-run events, and
- Fund small business entrepreneurs to conduct feasibility studies of proposed new business ventures in the District.

Information Centre

The Information Centre provides services to residents and visitors ranging from tourism information, event information, travel bookings and forest permits and information. The Centre also maintains the town centre public toilets.

Youth Development

Council's youth development activities include selecting recipients and presenting Young Achievers Awards, coordinating activities during school holidays and supporting Kawerau Youth Council activities, which are funded by the Ministry of Youth Development.

Impact on Community Well-beings

The Economic and Community Development activity impacts mostly on the social and economic well-beings in the community.

The activity is responsible for encouraging and facilitating economic growth in the community thereby ensuring the community grows and council services remain affordable. Also the activity encourages the social development of the community through such initiatives as the youth council, events and community grants.

NATURE AND SCOPE

Council considers it appropriate that it should be involved in local economic development. Activities in this group focus on promoting and encouraging industrial development, marketing the District as a desirable place to live and developing and extending current event activities.

CONTRIBUTION TO COMMUNITY OUTCOMES

The Economic and Community Development group of activities contributed mainly to Kawerau's Community Outcomes of:

- *Council works in partnership to attract people to visit, live and do business in Kawerau and to enhance economic and employment opportunities in the district.*
- *Council facilitates a vibrant community life with opportunities for creative, cultural and recreational activities*

IDENTIFIED EFFECTS OF THIS GROUP OF ACTIVITIES ON THE COMMUNITY

The Economic Development activity provides funding to a number of agencies that seek to further economic development in the District including the Eastern Bay of Plenty Regional Economic Development Trust.

THE YEAR IN SUMMARY

Major highlights for the Economic and Community Development group of activities in 2021/22 were:

- Continuing the development of the Industrial Symbiosis and container hub project,
- Continuing the development of the Porritt Glade Lifestyle Village which included the construction of another six retirement units
- Continued sales of residential property in Central Cove with a further nine sections in the subdivision being sold during the year .

Other achievements included:

- Continuing to manage and obtaining funding for “Christmas in the Park”.
- Obtaining funding and progressing Kawerau Trails project
- Delivering a strong calendar of events
- Appointment of the Kawerau Youth Council and providing support for its activities.
- Administering and providing grants to community groups for projects which benefit Kawerau residents.

KAWERAU YOUTH COUNCIL SWEARING IN CEREMONY

ECONOMIC AND COMMUNITY DEVELOPMENT

PERFORMANCE

Levels of Service	Measures	Target 2021/22	Results 2020/21	Results 2021/22	Comment
Council is actively involved in the Eastern Bay of Plenty Regional Development Agency	Representation at trustee meetings	90% of trustee meetings	Achieved	Achieved	CEO attended all trust meetings (6/6) during the year
Council encourages positive perceptions of Kawerau by supporting local events.	Frequency of events from February to December	At least 1 per month	Not achieved	Not achieved	There were no events held in December due to COVID restrictions.
Council provides an information centre which suits the community's need	Community satisfaction with the information centre	N/A	N/A	N/A	The community satisfaction survey is done every 3 years and was last carried out in Jan/Feb 2020.
Council provides a local information centre which is accessible to visitors and the local community	Number of days open each year	At least 360 days	Achieved	Achieved	The information centre was open 364/365 days for the year
Council supports young people to develop skills and attitudes needed to take a positive part in society	Youth council in place	Annual appointments made	Achieved	Achieved	New Youth Council appointed in April 2022 for the year.
	Satisfaction with youth council collaboration from collaborating groups	>90% satisfaction	Achieved 90%	Achieved	Survey undertaken of collaborating groups which reported 96.3% satisfaction with Youth Council collaboration.

ENVIRONMENTAL SERVICES

ACTIVITIES IN THE GROUP AND IMPACT ON COMMUNITY WELLBEINGS

The activities in the Environmental Services group are:

Resource Management Planning

Resource Management Planning aims to ensure responsible stewardship of natural and physical resources. Council's resource management responsibilities include ongoing review of policies, objectives and rules contained in the District Plan as well as information management and associated environmental monitoring.

Resource Consents

Council issues land use and subdivision consents for activities which balance development opportunities against the need to minimise adverse environmental effects. Consents are issued with regard to policies, objectives and rules in the District Plan.

Building Control

The Building Control activity regulates buildings to ensure public safety and health. Council's functions are to consent, inspect, monitor and certify building work and building safety.

Environmental Health Services

This activity promotes, safeguards and enhances public health by achieving compliance with environmental health and associated legislation and bylaws in particular food safety, water supply, noise control, liquor licensing and gambling.

Dog Registration and Control

Dog Registration activity is a statutory obligation under the Dog Control Act 1996 for Council to keep a register of dogs kept in the District. Dog Control activity is a community safety service focused on the control of dogs in the district and the enforcement of the Dog Control Act and Council's Dog Control Bylaw.

Civil Defence

The Civil Defence activity provides local planning for and management of civil defence emergencies. It relates to readiness, response, reduction and recovery.

Impact on Community Well-beings

The environmental services activity impacts mostly on the social and environmental well-beings in the community.

The activity is responsible for both providing and monitoring the necessary measures to ensure that the environment is maintained for future generations in a sustainable manner and that is affordable for residents. Also the activity ensures that the community's social needs are met by establishing the necessary bylaws or provisions in the district plan that enable residents to live together in harmony.

NATURE AND SCOPE

Council has regulatory and enforcement duties and powers under several acts of Parliament including the Local Government Act, the Health Act, the Building Act, the Dog Control Act and the Resource Management Act. Warranted officers work autonomously and in conjunction with enforcement authorities such as the police and public health, to uphold environmental, health and safety standards.

CONTRIBUTION TO COMMUNITY OUTCOMES

The Environmental Services group of activities contributes primarily to the Community Outcomes of:

- *Council sustainably manages Kawerau's environment through its stewardship, planning and consents.*
- *Council regulates, monitors and acts to protect public health and safety, to prevent harm and nuisance and to improve standards in Kawerau's home, commercial and public environment*

IDENTIFIED EFFECTS OF THIS GROUP OF ACTIVITIES ON THE COMMUNITY

Council is committed to the protection and enhancement of the environment, and the promotion, protection and enhancement of public health and safety.

THE YEAR IN SUMMARY

Major highlights for the Environmental Services group of activities in 2021/22 were:

- Ongoing accreditation of Council's building consent activity by the Building Consent Authority.
- Continued provision of good quality regulatory services to meet legislative requirements and also the needs of the community

Other achievements included:

- Carrying out, on average, more than one patrol each day to identify illegally dumped litter, abandoned vehicles, fire hazards and health nuisances
- Impounding 210 dogs during the year for various statutory breaches
- Responding to and investigating 413 noise complaints in accordance with statutory requirements and practice guidelines
- Participating in a shared service arrangement to deliver civil defence management capability across the Eastern Bay of Plenty.

ENVIRONMENTAL SERVICES

PERFORMANCE

Building Control

Levels of Service	Measures	Target 2021/22	Result 2020/21	Result 2021/22	Comments
Council provides in-house building consent, inspection and approval services.	Bi-annual Building Consent Authority accreditation re-assessment	Accreditation and registration retained	Achieved	Achieved	BCA accreditation and registration retained.
Service users consider Council's building control activity to be effective	Satisfaction* of service users – Building Inspection Processes	90% satisfaction	Achieved 6/6 (100%)	Achieved 10/10 (100%)	There was a total of 37 survey forms sent out and 10 responded scoring the service as being predominantly good or excellent.
	Satisfaction* of service users – Building Consents Processes	90% satisfaction	Not achieved 7/8 (87.5%)	Not achieved 1/2 (50%)	There were a total of 20 survey forms sent out and 2 responded.
Kawerau buildings requiring Building Warrant of Fitness (WOF) are compliant	Number of buildings audited for Building WOF requirements	35% audited	Achieved	Achieved	29/76 (38%)

*The questions asked in the survey to determine user satisfaction were:

1. Getting you quickly and directly to someone you could explain your needs to
2. How knowledgeable that person was about your request
3. The time it took for us to do what we said we could for you
4. How well our response or actions solved the matter for you
5. How friendly and interested we were

There was some reduced activity expenditure due to staff vacancies and additional capital expenditure was for the new dog pound which was budgeted in the previous year

ROADING

ACTIVITIES IN THE GROUP AND IMPACT ON COMMUNITY WELLBEINGS

The roading group of activities aims to provide and maintain a system of roads and footpaths which provides safe and comfortable passage for all users. Activities in the group are:

- Managing and monitoring the transport network
- Repairing and maintaining assets and structures
- Operating roading activity assets, and
- Planning to improve operations and meet future requirements.

Council's roading group of activities provides a network of roads/footpaths for the safe and comfortable passage of vehicles and vulnerable road users such as pedestrians, cyclists and mobility scooters in and through the District.

Impact on Community Well-beings

The roading activity impacts mostly on the social and economic well-beings for the community.

This activity is responsible for providing and maintaining the roading network within the community to ensure that economic activity can continue and that residents are able to maintain their social networks.

Also the roading activity is provided in a sustainable manner to ensure that it is affordable.

STRATEGY

Council has developed a Roding Asset Management Plan which provides for the efficient and effective management of the roading asset. This Plan allows Council to allocate detailed funding to properly maintain the asset while also making provision for the longer term financing required.

NATURE AND SCOPE

The roading network comprises approximately 43 kilometres of roads and associated infrastructure such as bridges, street lights, kerbing, signs and markings, car parks and footpaths.

Control over the District's roads is vested in Council by the Local Government Act 2002. Waka Kotahi subsidises much of Council's roading expenditure, including street cleaning and the maintenance of roads and associated lighting systems. In addition to this work, Council also maintains Kawerau's footpaths and a substantial paved area in the town centre. Waka Kotahi is responsible for State Highway 34.

GOALS

To provide and maintain a system of roads/footpaths for the safe and comfortable passage of vehicles, pedestrians, cyclists and other vulnerable road users (including mobility scooters) in and through the District.

CONTRIBUTION TO COMMUNITY OUTCOMES

The roading group of activities contributes mainly to Kawerau's Community Outcomes of:

- *Council infrastructure and services are accessible, age and disability friendly, effective, efficient and affordable now and for the future.*

IDENTIFIED EFFECTS OF THIS GROUP OF ACTIVITIES ON THE COMMUNITY

The Roding activity delivers an efficient transport network that has minimal impact on the environment. During the year, Council carried out its programmed reseals, street lighting upgrades, road marking and safety improvements.

Significant negative effects on the roading network are traffic accidents. To reduce numbers and severity, Council is a partner in the Eastern Bay of Plenty Road Safety Management System. Council has developed the Eastern Bay of Plenty Road Safety System, undertakes safety audits and provides street lighting, signage and pavement marking.

THE YEAR IN SUMMARY

Achievements for the Roding group of activities in 2021/22 were:

- Ongoing asset renewals including pavement reseals, carparks, kerbs and channels, and street lights.
- Accelerated renewal of footpaths to improve the safety for residents

148,021	Reseals	130,000	130,000
989,346	Other renewals	668,960	219,874
1,560,596	Total Infrastructural	1,095,960	652,402

FUNDED BY:

652,754	Depreciation Reserve Funding	305,460	163,100
907,842	Subsidies and grants for capital purposes	790,500	489,302
1,560,596		1,095,960	652,402

The road realignment along with drainage and hardstand work for the town centre were delayed which resulted in reduced capital subsidy. These projects will be undertaken in 2022/23. Also there was lower maintenance costs which meant reduced overheads and operating subsidy.

RENAMING OF TE ARIKI PLACE TO HINE TE ARIKI PLACE

STORMWATER

ACTIVITIES IN THE GROUP AND IMPACT ON COMMUNITY WELL-BEINGS

The purpose of the stormwater activity is to dispose of stormwater in a manner which protects the community from flooding and minimises negative impacts to the environment. Activities in the group include:

- Disposal of stormwater from the roading network
- Repairing or replacing unsound pipes and other stormwater structures
- Cleaning pipes and cesspits
- Planning to meet future requirements and improving operations

Impact on Community Well-beings

The stormwater activity impacts mostly on the social and environmental well-beings for the community.

This activity is responsible for providing and maintaining the stormwater network within the community to ensure that the risk of flooding is mitigated as much as possible and residents are kept safe.

Also the stormwater activity is provided in a sustainable manner to minimise the impact on the environment and to ensure that it is affordable for residents.

STRATEGY

Council has adopted a stormwater Asset Management Plan which provides for the efficient and effective management of stormwater assets. This Plan allows Council to properly maintain the asset at the optimum level while also making provision for the longer term financing required.

NATURE AND SCOPE

The stormwater system is a network of pipes, manholes and cesspits which collects stormwater from roads and transports it to natural water courses. The network is divided into six zones based on the estimated average date at which each zone was developed. Each zone is given the same installation date and the same replacement date.

Most of the stormwater network is made of concrete pipes and the rate of deterioration is very slow. To resist corrosion in the small geothermal area in the CBD, the network has a mixture of glazed earthenware and High Density Polyethylene (HDPE) black plastic pipes, which are more resistant to the sulphur.

GOALS

To provide and maintain a system for the disposal of stormwater in a manner which the community from flooding and minimises the negative impacts to the environment.

CONTRIBUTION TO COMMUNITY OUTCOMES

The Stormwater activity contributes mainly to Kawerau's Community Outcomes of:

- *Council infrastructure and services are accessible, age and disability friendly, effective, efficient and affordable now and for the future.*

IDENTIFIED EFFECTS OF THIS GROUP OF ACTIVITIES ON THE COMMUNITY

The stormwater activity delivers an efficient network that has minimal impact on the environment. During the year, Council carried out its programmed renewal work.

The significant negative effects for the collection and discharge of stormwater are that it contains contaminants from road surfaces. However, the receiving water (Tarawera River) is large, clear and fast flowing and capable of dealing with the discharges.

Flooding from the stormwater network can cause property damage for residents.

THE YEAR IN SUMMARY

Some stormwater pipes in the outer area of the town centre were replaced during the year.

PIPEWORK RENEWAL ALONG PLUNKET STREET

WATER SUPPLY

ACTIVITIES IN THE GROUP AND IMPACT ON THE COMMUNITY WELL-BEINGS

The Water Supply group of activities is concerned with sourcing, treating and supplying potable (drinkable) water to more than 2400 households, four large industries and approximately 200 other businesses in the District.

Impact on Community Well-beings

The water activity impacts mostly on the social, environmental and economic well-beings for the community.

This activity is responsible for providing potable water to the community in a sustainable manner to ensure that it is affordable, and meets the necessary health standards.

NATURE AND SCOPE

The District water supply is sourced from two springs on privately owned land, one in town and the other 3.5 km to the south west. From there, water is pumped to a treatment plant for UV disinfection and chlorination to comply with Drinking Water Standards of NZ guidelines. After treatment, water is pumped to three reservoirs, two on Monika Lanham Reserve and one above Beattie Road, and then gravity-fed to premises around Kawerau.

In times of peak demand, additional water can also be obtained from a bore field in Tarawera Park.

The Water Supply activity also involves:

- Managing Water Supply assets: pipes, structures and plant
- Monitoring and reporting water quality
- Planning to improve operations and meet future requirements.

CONTRIBUTION TO COMMUNITY OUTCOMES

The supply of good quality water is fundamental to Community wellbeing. This group of activities contributes mainly to the Community Outcomes of:

- *Council infrastructure and services are accessible, age and disability friendly, effective, efficient and affordable now and for the future.*

IDENTIFIED EFFECTS OF GROUP OF ACTIVITIES ON THE COMMUNITY

The provision of potable water is fundamental to a community's health and well-being.

Kawerau's water supply is not considered a "secure" supply as defined by the Drinking Water Standards New Zealand (DWSNZ) due to historical detection of faecal coliforms in the source water and the inability to prove that the water has been underground for more than twelve months or is not directly affected by surface or climate influences in the environment. Previously, contaminations, when detected, were temporarily treated with a shock dose of chlorine to the water supply.

Council after considering all the potential risks to the community resolved to chlorinate the water supply from 1 July 2018 in order to comply with the DWSNZ.

THE YEAR IN SUMMARY

Achievements for the Water Supply group of activities in 2021/22 were:

- Continuation (year 2) of 6 year programme to replace AC and steel pipes in town – 3.4 km
- Ongoing flushing of lines when "dirty" water is reported - significant reduction in "dirty" water reported
- Continuing programme of valve and toby replacement

WATER SUPPLY

PERFORMANCE

Levels of Service	Measures	Target 2021/22	Results 2020/21	Results 2021/22	Comments
Provision of a quality water supply	Community satisfaction with water supply	N/A	N/A	N/A	The community satisfaction survey is done every 3 years and was last carried out in Jan/Feb 2020.
Customer satisfaction	The total number of complaints received about any of the following: a) drinking water clarity b) drinking water taste c) drinking water odour d) drinking water pressure or flow e) continuity of supply, and f) Council's response to any of these issues expressed per 1,000 connections to the networked reticulation system.	a) No more than 4 per 1,000 connections b) No more than 2 per 1,000 connections c) No more than 1 per 1,000 connections d) No more than 2 per 1,000 connections e) No more than 2 per 1,000 connections f) 0 per 1,000 connections Overall the target is no more than 11 complaints per 1,000 connections.	Not achieved	Not achieved	Council has 2,880 connections a) 5 complaints about dirty water (1.8 per 1,000 connections) b) 3 complaints about taste (1 per 1,000 connections) c) No odour complaints d) 8 complaints about water pressure (2.9 per 1,000 connections) e) No complaints concerning continuity of supply f) No complaints about responses to above issues
Safety of drinking water	The extent to which Council's drinking water supply complies with: a) part 4 of the 2008 drinking-water standards (bacteria compliance criteria), and b) part 5 of the 2008 drinking-water standards (protozoal compliance criteria)	a) no more than 1 instance of bacteria criteria non-compliance, and b) no instance of protozoal criteria non-compliance	Not achieved. (While there was no bacteria non-compliance, there was protozoal non-compliance)	Not achieved	There was no instance of bacteria non-compliance but there were 2 technical breaches for protozoal non-compliances

Levels of Service	Measures	Target 2021/22	Results 2020/21	Results 2021/22	Comments
Maintenance of the reticulation network	The percentage of real water loss from the Council's networked reticulation system, measure using the minimum night flow (MNF) analysis method contained in the DIA Guidelines	<200 litres per connection per day	Achieved (154 litres per connection per day)	Achieved	The analysis undertaken (May 2022) found the average leakage was approximately 160 litres per connection per day

Levels of Service	Measures	Target 2021/22	Results 2020/21	Results 2021/22	Comments
Demand management	The average consumption of drinking water per day per resident within the district.	<0.6 m ³	Achieved (0.52m ³)	Achieved	The average consumption was 0.53 m ³ per person per day.
Fault response times	Where the local authority attends a call-out in response to a fault or unplanned interruption to its networked reticulation system, the median response times are:				
	a) attendance for urgent call-outs: from the time that Council receives notification to the time that service personnel reach the site, and	Less than 2 hours	Achieved (4 callouts and the median response time was 0.15 hours)	Achieved	There were 0 urgent call outs during the year
	b) resolution of urgent call-outs: from the time that Council receives notification to the time that service personnel confirm resolution of the fault or interruption.	Less than 8 hours	Achieved (Median resolution time was 2.68 hours)	Achieved	N/A
	c) Attendance for non-urgent call-outs: from the time that Council receives notification to the time that service personnel reach the site, and	24 hours	Achieved (68 callouts and the median response time was 0.37 hours)	Achieved	There were 88 non-urgent call-outs during the year and the median attendance time was 0.57 hours
	d) Resolution of non-urgent call-outs: from the time that Council receives notification to the time that service personnel confirm resolution of the fault or interruption.	48 hours	Achieved (Median resolution time was 1.85 hours)	Achieved	The median resolution time for non-urgent call-outs was 2.23 hours*
Water is sourced with minimal environmental effects	Compliance with BOP Regional Council water supply resource consents as reported in annual "consents and compliance field sheet"	Compliance	Achieved	Achieved	Complying with old consent and still seeking a new consent
The water supply is reliable and has minimal disruptions	Number of unplanned shutdowns - reticulation	No more than 12	Not achieved (16 shutdowns)	Achieved	There were 2 unplanned shutdowns during the year
	Number of unplanned shutdowns – pump stations	None	Achieved (None)	Achieved	There were no unplanned shutdowns of pump stations during the year
	Number of water main breaks	No more than 8	Achieved (7 breaks)	Achieved	There was 1 water main breaks during the year

* Results are based on attendance and resolution times recorded by Council staff responding to the call-outs, however there is no process to independently verify the information.

27,984	Toby renewals	150,000	48,186
157,196	Other renewals	240,000	61,240
<u>1,418,595</u>	Total Infrastructural	<u>2,213,000</u>	<u>1,345,242</u>

FUNDED BY:			
40,000	Subsidies and grants for capital purposes	0	20,000
0	Loan	2,000,000	0
1,378,595	Depreciation Reserve Funding	213,000	1,325,242
<u>1,418,595</u>		<u>2,213,000</u>	<u>1,345,242</u>

There was not as much pipework replaced due to contractor delays and also a pump renewal along with toby replacement were not completed. Council did not need to raise a loan during this period as it had sufficient funds throughout the year.

TWO WATER TANKS ON MONIKA LANHAM RESERVE

WASTEWATER

ACTIVITIES IN THE GROUP AND IMPACTS ON COMMUNITY WELLBEINGS

The Wastewater group of activities involves the collection and disposal of wastewater (including sewage). Council's wastewater system is a network of pipes, manholes, cleaning eyes, pumps and a treatment plant. Wastewater is collected from almost all properties in the district and treated and disposed of in accordance with consent conditions.

The wastewater activities are:

- The treatment of wastewater from properties in the district
- Repairing or replacing unsound pipes and other wastewater structures
- Cleaning pipes
- Planning to meet future requirements and improving operations

Impact on Community Well-beings

The wastewater activity impacts mostly on the social, environmental and cultural well-beings for the community.

This activity is responsible for providing wastewater disposal services for the community in a sustainable manner that is not culturally offensive, ensuring that it meets the necessary environmental standards and is affordable for residents.

NATURE AND SCOPE

Council is involved in wastewater collection and disposal to fulfil a range of legislative duties imposed by the Health Act, the Building Act and the Local Government Act. Council's aims in providing a wastewater disposal system are to enhance public health in the District and to safeguard the local environment.

CONTRIBUTION TO COMMUNITY OUTCOMES

The Wastewater group of activities contributes mainly to Kawerau's Community Outcomes of:

- *Council infrastructure and services are accessible, age and disability friendly, effective, efficient and affordable now and for the future.*

IDENTIFIED EFFECTS OF GROUP OF ACTIVITIES ON THE COMMUNITY

The Wastewater activity contributes to the good health and safety of the Community.

THE YEAR IN SUMMARY

Achievements in the Wastewater group of activities in 2021/22 were:

- Continuous provision of service to high standard
- Renewal of pumps at pumping station
- Upgrades to treatment plant
- Renewal of 2.5 km of wastewater pipe for the year

WASTEWATER

PERFORMANCE

Levels of Service	Measures	Target 2021/22	Result 2020/21	Result 2021/22	Comment
Provision of domestic wastewater collection and primary treatment	Community satisfaction with wastewater disposal	N/A	N/A	N/A	The community satisfaction survey is done every 3 years and was last carried out in Jan/Feb 2020.
Customer satisfaction	The total number of complaints received about any of the following: a) sewage odour b) sewerage system faults c) sewerage system blockages, and d) Council's response to issues with its sewerage system, expressed per 1000 connections to the sewerage system.	a) No more than 1 per 1,000 connections b) No more than 15 per 1,000 connections c) No more than 15 per 1,000 connections d) 0 per 1,000 connections	Achieved a) 0 per 1,000 b) 0 per 1,000 c) 2.7 per 1,000 d) 0 per 1,000	Achieved	Council has 2,880 connections a) No odour issues (0 per 1,000) b) 5 faults reported (1.7 per 1000) c) There were 8 blockages (2.8 per 1000) d) There were no complaints about responses (0 per 1,000)
System Adequacy	The number of dry weather sewage overflows from Council's sewerage system, expressed per 1000 connections to that sewerage system.	0 per 1,000 connections to the sewerage system	Not Achieved (1 overflow)	Not achieved	There were 4 dry weather overflows during the year.
Fault response times	Where Council attends to sewage overflows resulting from a blockage or other fault in its sewerage system, the median response times are:				
	a) attendance time: from the time that Council receives notification to the time that service personnel reach the site, and	Less than 1 hour.	Achieved (1 overflow attended in 0.17 hours)	Achieved	There were 5 sewerage overflows which were all attended to within 1 hour.
	b) resolution time: from the time that Council receives notification to the time that service personnel confirm resolution of the blockage or other fault.	Less than 8 hours.	Not achieved (1 overflow resolved after 2 weeks due to sewer line collapse)	Not achieved	4 sewerage overflows were resolved within 8 hours, however 1 exceeded 8 hours.
Council provides a reliable domestic wastewater collection and disposal service	Number of disruptions to wastewater collection service	No more than 50.	Achieved (1)	Achieved	There was 1 disruption to wastewater collection service during the year.

Levels of Service	Measures	Target 2021/22	Result 2020/21	Result 2021/22	Comment
Discharge compliance	Compliance with resource consents for discharge from Council's sewerage system measured by the number of: a) abatement notices b) infringement notices c) enforcement orders, and d) convictions, received in relation those resource consents.	No notices, orders or convictions.	Achieved a) 0 b) 0 c) 0 d) 0	Not achieved	Council did not receive any abatement notices, enforcement orders nor convictions during the year. However, Council did receive 14 infringement notices during the year.
The wastewater treatment plant operates effectively	Compliance with wastewater treatment plant resource consents as reported in annual Consents and Compliance Field Sheet	Compliance. ¹	Not achieved (Excessive volumes from dairy factory)	Not achieved	Council did not comply with conditions of the resource consent during the year due to the volumes received from the dairy factory.

* Results are based on attendance and resolution times recorded by Council staff responding to the call-outs, however, there is no process to independently verify the information.

¹ BOPRC inspection reports state either compliance or non-compliance.

SOLID WASTE

ACTIVITIES IN THE GROUP AND IMPACT ON COMMUNITY WELLBEINGS

The Solid Waste group of activities involves the collection and disposal of solid waste to maintain public health avoid public nuisance and retain aesthetic values in the district.

The solid waste activities are:

- The weekly residual household waste collection.
- The operation of a local transfer station which accepts all types of waste. Residual waste is transported to Tirohia landfill on the Hauraki Plains.
- A weekly "zero-waste" kerbside collection of recyclable materials and a fortnightly green waste collection

Impact on Community Well-beings

The solid activity impacts mostly on the social, environmental and cultural well-beings for the community.

This activity is responsible for providing solid waste disposal services for the community in a sustainable manner that is not culturally offensive, ensuring that it meets the necessary environmental standards and is affordable for residents.

NATURE AND SCOPE

Council is involved in refuse collection to provide the community with a convenient method to remove unwanted materials from their properties, thereby upholding public health and hygiene standards.

The aim of refuse disposal is to dispose of refuse in an environmentally acceptable manner.

The recycling/zero waste activity aims to reduce the volume of waste going to the landfill by maximising the material going to reusable waste streams thereby minimising some of the negative environmental effects of human consumption.

CONTRIBUTION TO COMMUNITY OUTCOMES

The Solid Waste group of activities contributes mainly to Kawerau's Community Outcomes of:

- *Council infrastructure and services are accessible, age and disability friendly, effective, efficient and affordable now and for the future.*

IDENTIFIED EFFECTS OF THIS GROUP OF ACTIVITIES ON THE COMMUNITY

The potential negative effects for this group of activities are:

- Odour
- Health risks
- Vermin infestation
- Visual pollution.

THE YEAR IN SUMMARY

Achievements in the Solid Waste group of activities in 2021/22 were:

- Refuse and recycle collections continued throughout the year without disruption
- There was additional revenue as a result of increased volumes, but there was also increased disposal costs
- Increased volumes of material going to the recycling centre compared to previous years.

More fees were received for waste disposal, but there was an increase in costs because of higher volumes and increased disposal costs. During the COVID-19 lockdown, Council ceased the recycle collection.

LEISURE & RECREATION

ACTIVITIES IN THE GROUP AND IMPACT ON COMMUNITY WELLBEINGS

The Leisure and Recreation group of activities includes community halls and facilities, the district library and museum, the swimming pool complex, Kawerau's many parks and gardens and the cemetery. The activities are:

Community Halls and Public Facilities

Council owns and maintains four public halls for recreational and cultural pursuits, four clubroom/pavilion buildings on reserves used by various sporting codes and 3 public toilet facilities on reserves. All these halls and facilities are available for public hire at reasonable rates.

District Library and Museum

The Kawerau District Library and Sir James Fletcher Kawerau Museum is a key facility which supports Community information needs, recreation, cultural interests and lifelong learning.

Parks and Reserves

Council owns and maintains a number of recreation reserves which include sports fields, passive reserves and children's playgrounds. Specimen trees and flowerbeds on roadside and amenity reserves further enhance the visual beauty of the District. Council also provides the Kawerau Cemetery to accommodate Community interment needs.

Swimming Pools Complex

Popular both with locals and visitors, the Maurie Kjar Memorial Swimming Pools Complex is a year-round facility with geothermally-heated swimming and spa pools. Entry is free.

IMPACT ON COMMUNITY WELLBEING

The leisure and recreation activity impacts mostly on the social, cultural and economic well-beings for the community.

This activity group is responsible for providing leisure and recreation services for the community to meet their social and cultural needs and also promote both physical and mental health. The activities in this group are provided by Council to make them available and affordable for residents.

NATURE AND SCOPE

Council maintains sporting, leisure and recreational facilities to enhance the nature of Kawerau as a recreation and leisure-conscious Community and to maximise opportunities for the Community to participate in recreational and cultural pursuits. Because this group of activities can potentially improve the quality of life of the whole Community in some way, it is important to Council that a wide range of services is provided.

CONTRIBUTION TO COMMUNITY OUTCOMES

The Leisure and Recreation group of activities contributes mainly to Kawerau's Community Outcomes of:

- *Council infrastructure and services are accessible, age and disability friendly, effective, efficient and affordable now and for the future.*
- *Council facilitates a vibrant community life with opportunities for creative, cultural and recreational activity.*

IDENTIFIED EFFECTS OF THIS GROUP OF ACTIVITIES ON THE COMMUNITY

The Leisure and Recreation group of activities provides the people of Kawerau with a quality of life second to none. The level of quality and extent of these services directly improves the quality of life of the community.

THE YEAR IN SUMMARY

Major highlights for the Leisure and Recreation group of activities in 2021/22 were:

- Renewal of children and adult books at the library and completion of upgrade to reception area
- On-going renewals at the swimming pool
- Construction of new pool entrance and office
- Renewal of a number of reserve fences including boundary fences
- Purchase of new equipment for playgrounds

There was some additional projects done during the year in response to community demand. These included:

- Swimming Clubrooms fit-out and construction of new pool entrance/office
- Installation of irrigation system at Tarawera Park

PLANTING AT KAWERAU CEMETERY AS PART OF MATARIKI CELEBRATION

COUNCIL CONTROLLED ORGANISATIONS

BAY OF PLENTY LOCAL AUTHORITY SHARED SERVICES

Background

The Council Controlled Organisation was formally established in January 2008. The Company was set up by the eight local authorities in the Bay of Plenty region to foster collaboration between Councils in the delivery of services particularly back office or support services.

As a Council Controlled Organisation, the Bay of Plenty Local Authority Shared Services (BOPLASS) is a separate legal entity from Council and is responsible for delivering in accordance with an agreed Statement of Intent. The Company is governed by a Board of Directors who are the Chief Executives of the constituent local authorities.

FINANCIAL PERFORMANCE FOR THE YEAR ENDED 2022		
	Parent 2020/21 \$000's	Parent 2021/22 \$000's
Revenue	1,563	1,998
Expense	(1,539)	(1,986)
Net (Deficit)/Surplus Year	24	12
Less Tax Expenses	8	6
Net Surplus/(Deficit) after Tax	16	6

Statement of Intent and Performance

The company has complied with section 64 of the Local Government Act 2002 (LGA) and had the Statement of Intent for 2021/22 and associated budget formally adopted by the directors at the meeting held 30 June 2021.

The following is a report of performance against targets set in the Statement of Intent for 2021/22.

Performance Targets for 2021/22		
Targets	Measure	Progress as at 30 June 2022
Investigate new joint procurement initiatives for goods and services for BOPLASS councils. Procure from sources offering best value, service, continuity of supply and/or continued opportunities for integration.	Minimum of 4 new procurement initiatives investigated. Initiatives provide financial savings of greater than 5% and/or improved services levels to participating councils.	Achieved. Joint procurement initiatives which were investigated for the year, included: <ul style="list-style-type: none"> • Postal Services • Courier Services • Infrastructure Insurance • GIS Training • Everyday wellbeing • Rapid Antigen Testing (RATs) • High Volume Print • Aerial Imagery • Cyber Insurance

Targets	Measure	Progress as at 30 June 2022
<p>Identify opportunities to collaborate with other LASS in Procurement or Shared Service projects where alliance provides benefits to all parties.</p>	<p>BOPLASS to regularly engage with other LASS to identify and explore opportunities for further inter-regional collaboration.</p>	<p>Achieved.</p> <p>BOPLASS has collaborated with other LASSs on the following services:</p> <ul style="list-style-type: none"> • Debt Recovery Services • Insurance Renewal Standardisation • RAT Purchasing • Staff Well-being Portal • Regional Contractor Database • Waste Operator Licensing Data System • Courier Services • Mail Services • H&S Management System • H&S Training Providers • Risk Management Practices • Collaborative Policy Development • Occupational Health Services
<p>Ensure supplier agreements are proactively managed to maximise benefits for BOPLASS councils</p>	<p>Manage and/or renegotiate existing contracts.</p> <p>Contracts due for renewal are tested for competitiveness in the marketplace. New suppliers are awarded contracts through a competitive procurement process involving two or more vendors.</p>	<p>Achieved.</p> <p>Contracts negotiated and/or renewed for:</p> <ul style="list-style-type: none"> • Zoom Video conferencing services • GIS software and services • Print Media Copyright Agency (PMCA) • Health & Safety Mangt Software • ESRI Licence Agreement • Aerial Imagery • N3 (GSB) Membership • Vertical Horizonz (H & S trainer contract) • Media Monitoring Services • Inter-Council Network (ICN) • Standards NZ • MFD (Printer/copiers) extended • IPWEA Membership

Targets	Measure	Progress as at 30 June 2022
Communicate with each shareholding council at appropriate levels.	Meeting with each executive leadership team. (At least once per year)	Not achieved. Formal meetings with all council executive teams were unable to be completed this year. Staff absences, travel BOPLASS Limited Annual Report for the Year Ended 30 June 2022 13 restrictions and increased workloads meant not all councils could attend.
Further develop and extend the collaboration portal for access to and sharing of, project information and opportunities from other councils and the greater local government community to increase the breadth of BOPLASS collaboration. Increase the use of the collaboration portal by providing support and training material for new and existing users. Proactively market the benefits to councils.	Number of listed projects to increase by 20% per year. Number of active users to increase by 20% per year.	Achieved. This target was achieved by: <ul style="list-style-type: none"> • Continued promotion of the “Mahi Tahī” collaboration portal, increased the number of users by a further 10.5% • On-boarding and training material has been helpful in creating a smooth transition for any new members. • Working with the DIA, the MahiTahi Collaboration Portal now includes secure areas to support Local Transition Groups working collectively on the Three Waters project. • Regional Software Holdings Limited are migrating the regional sector Special Interest Groups to be hosted in a similar collaborative environment as the MahiTahi Collaboration Portal. Technical aspects of the migration are being supported by BOPLASS.
Ensure current funding model is appropriate.	Review BOPLASS expenditure and revenue as well as review council contributions and other sources of funding. Performance against budgets reviewed quarterly. Company remains financially viable.	Achieved. The sources of BOPLASS funding and the viability of the funding model are regularly reviewed with financial reporting provided to the BOPLASS Board, which includes: <ul style="list-style-type: none"> • Council contributions levied. • Contributions received from activities producing savings. • Vendor rebates collected. • Monthly and quarterly performance reviewed. • Financial statements reported and reviewed at Board meetings. Financial position year end 30 June 2022: \$6,244 surplus.

Toi-EDA (Economic Development Agency)

Toi-EDA is the Eastern Bay of Plenty Regional Economic Development Agency. It was set up by the three territorial authorities (Kawerau, Opotiki and Whakatane), the regional council (Bay of Plenty Regional Council) and Te Rūnanga o Ngāti Awa on behalf of Mataatua Iwi Forum.

Toi-EDA operates under a Deed of Trust. It has six experienced business people and community leaders as board members or trustees. The Trust operates under the umbrella of the new Bay of Plenty regional partnership with two other groups: Tauranga's Priority One and Destination Rotorua Economic Development.

Toi-EDA is responsible for economic development activities across the Eastern Bay of Plenty Region.

Toi-EDA adopted a three-year strategic plan with a strong focus on enhancing the Eastern Bay of Plenty's economic growth and resultant wealth for its people. It is a conduit in the Eastern Bay for Central Government economic development funding, and has been involved in designing an action plan of projects for funding from New Zealand Trade and Enterprise.

The work of Toi-EDA supports Kawerau District Council's community outcome "Council encourages economic and employment opportunities for the community."

MONITORING OF PROGRESS TOWARDS ACHIEVING COMMUNITY OUTCOMES

One of the approaches Council uses to determine how well it is performing is the National Research Bureau's 'Communitrak' survey. The results of the survey commissioned in January 2020, the Community Outcome to which each measure primarily contributes and results from the last survey are shown in the table below. The next survey is intended to be carried out in January 2023.

Measure (Community satisfaction with)	Very/ Fairly Satisfied 2017 %	Very/ Fairly Satisfied 2020 %
Performance of the Mayor and Councillors in the last year	87	83
The way rates are spent on services and facilities provided by Council	93	89
Consultation and Community Involvement - The way Council involves the public	63	65
Dog Control Service	69	81
Public Library	84	87
Refuse disposal (Refuse Transfer Station)	81	78
Rubbish collection	95	97
Recycling services	95	91
Community attractiveness and beautification	100	98
Museum	63	58
Quality of life in Kawerau	94	91
Kawerau is definitely or mostly a safe place to live	90	88
Kawerau as a place to live is the same or better than it was three years ago	92 (agree)	92 (agree)
Emergency management – Percentage of households which have an emergency management kit	54	49
Water supply	96	73
Parks and reserves	96	93
Swimming pool	90	90
Roads	97	95
Footpaths	85	81
Wastewater (sewage disposal)	91	95
Cemetery	71	76
Public toilets	54	80
Community spirit	85	86
Public halls	75	80

Council also undertook monthly surveys of users of its services throughout the 2021/22 year. There continued to be a high level of user satisfaction with all Council services. The Summary of these survey results is as follows:

ALL SERVICES

2020/21	Customer Service Satisfaction Survey (CSSS)	2021/22
638	CSSS forms posted out	477
120	CSSS forms returned	107
18.8%	Response rate	22.4%
Feedback received from Customers		
82	Predominantly Excellent	68
25	Predominantly Good	19
8	Predominantly Only Fair	7
8	Predominantly Poor	5
0	Not applicable	3
5	No boxes ticked	5
Conclusion		
87.0%	% customers satisfied (Excellent/Good)*	87.9%
13.0%	% customers unsatisfied (Fair/Poor)*	12.1%

*The not applicable boxes and no boxes ticked categories have not been included in the percentage figures

KAWERAU DISTRICT COUNCIL
Annual Report Summary
For the Year Ended 30 June 2022

MAYOR'S MESSAGE

Kia Ora and welcome to Council's annual report summary for the year ended 30 June 2022.

Overall, it was a good year with Council continuing to maintain excellent services for residents while still being in a reasonably strong financial position.

For the 2021/22 year Council there was a deficit of \$110.9k which was only \$2.9k more than budget. During the year Council spent an additional \$745.6k more than budget on operations, but also received \$742.7k more revenue than budget. This additional revenue resulted from additional grants income received for: swimming pool renovations, 3 waters reforms and employment initiative funding. The additional expenditure mostly resulted from the increased cost of solid waste disposal (both increased volume and the cartage & disposal costs)

COVID-19 pandemic continued to impact on Council and the community during the year with projects from the previous year having to be carried out during the year and some projects being delayed due to shortages in materials.

For the 2021/22 financial year, Council spent \$6.0 million on capital/renewal projects.

The major achievements during the 2021/22 financial year included:

- Continued delivery of council services to a high standard throughout the year
- Construction and sale of eight units in the Porritt Glade Lifestyle Village. The total number of units in the village is 18
- Renewal of 4.9 kms of watermains in the Plunket Street and Onslow Street areas
- Replacement of 2.5 kms of wastewater pipes in the CBD and Plunkett Street
- Construction of a new entranceway and staffroom at the Aquatic Centre
- Continued progress and renewal of damaged and dangerous footpaths as well as kerb and channels

There were some significant changes announced for local government during the previous year, including: 3 waters reforms, reviewing the Resource Management Act and the Future of Local Government reform. However, there are concerns that these reforms may not result in the best outcomes for Council or the community. Council will continue to inform the community on likely future impacts of these reforms as soon as they are known.

Also the community's biggest ratepayer announced that it was ceasing operating from 30 June 2021, but there was no impact on rates for 2021/22. However due to the reduced valuation for this ratepayer, Council had to consult the community and determine how the resulting rating shortfall for 2022/23 was going to be allocated.

Finally, I would like to acknowledge the ongoing contributions made by both elected members and staff towards Council's achievements during the year. Also I would like to thank the residents of Kawerau for their contributions throughout the year and helping to make this a great place to live.

F K N Tunui
MAYOR

This Summary Annual Report was authorised by:
Russell George, Chief Executive Officer on 15 March 2023 at Kawerau.

Independent Auditor's Report

Independent Auditor's Report

IMPACT OF COVID-19

The lockdown in the previous financial year and early in 2021/22, restricted some Council services and delayed some capital projects. Some projects and corresponding revenue were delayed until 2021/22. Also the restrictions put in place by the Government continued to impact Council's revenue and expenditure during the 2021/22 financial year.

SIGNIFICANT RATEPAYER

In the previous year Norske Skog, which paid approximately 20% of Council's total rates, announced that it was ceasing operations and selling the site and assets. This significantly impacted Council's rates for the 2022/23 financial year and during the year Council consulted the community on options for spreading the rating shortfall over the various ratepayer groups.

LEGISLATIVE REFORMS

Government previously announced that it was reviewing three significant areas of local government. These included:

- The three waters reforms
- Review of the Resource and Management Act 1991
- Review of the functions undertaken by local government

The 3 waters reform proposal by Government is that local authorities would no longer be responsible for delivering these activities and the assets would transfer to 4 entities to deliver the services. Council does not believe this reform will be in the best for the community and has joined Communities 4 Local Democracy with 33 other councils which are opposing the Government's reform.

Also a ministerial enquiry into the future of local government was undertaken during the previous year focusing on council's roles, functions and partnerships, representation and governance and funding and finance. A report with recommendations was scheduled for September 2022.

A resource review panel was appointed at the beginning of the financial year, to undertake a comprehensive review of the Resource Management Act and the relationship between affected parties. Government confirmed that the RMA will be repealed and replaced with 3 new acts.

Assumptions

There is the possibility that the COVID-19 pandemic will further impact the community in the future and in turn this will affect Council's revenue, however, this risk is considered to be low. The district's industry continues to operate without reduction to their operations or workforce numbers. In addition, rate collection percentages are similar to previous years. Council continues to encourage ratepayers to let us know if they are having difficulties. Only a small percentage of Council's revenue is dependent on visitor numbers and while there may be temporary reduction in this revenue, it is likely to be minimal.

The three waters reform will have a significant impact for local government and their respective communities. No doubt this will influence the future of the Local Government reforms as councils will have significantly reduced activities and revenue unless other functions are given to them.

The RMA reforms are unlikely to impact significantly on the district

Council has prepared these accounts under a going concern assumption and at the time of preparing this report, it is planning to continue to deliver the services as provided in Council's 2021 – 31 Long Term Plan.

Council is confident it can continue providing excellent services to the community, at a cost the community is able to afford.

3,293,541	Cash, cash equivalents and bank overdrafts at the beginning of the year	2,942,640	4,616,631
4,616,631	Cash, cash equivalents and bank overdrafts at the end of the year	4,839,694	3,666,724

Breach of Statutory Deadline

Kawerau Council was required under section 98 (7) (a) of the Local Government Act 2002 to complete and adopt its audited financial statements and service performance information by 31 December 2022. This time frame was not met because Audit New Zealand was unable to complete the audit due to auditor shortage and the consequential effects of Covid-19 including lockdowns.

REPORTING ENTITY

Kawerau District Council (KDC) is a local authority in terms of the Local Government Act 2002. The financial statements, for the year ended 30 June 2022, have been prepared in terms of section 98 of the Local Government Act 2002 and in accordance with generally accepted accounting practice.

The full financial statements have been prepared in accordance with tier 2 Public Benefit Entities (PBE) Reduced Disclosure Regime (RDR) accounting standards (for reporting periods beginning on or after 1 July 2014) and Council confirms in the statement of compliance (in the full financial statements) compliance with these accounting standards for the period covered by this annual report summary.

These summary financial statements comply with Public Benefit Entity report standard 43: Summary Financial Statements.

The full financial statements for the period ended 30 June 2022 were authorised for issue by Council on 15 March 2023. The financial statements for each period presented in the Summary have been audited by Audit New Zealand and received an unmodified audit opinion.

The full Annual Report is available online at www.kaweraudc.govt.nz or can be obtained at the Council office.

BASIS OF PREPARATION

The financial statements have been prepared on a historical cost basis, modified by the revaluation of land and buildings, certain infrastructural assets, investment property and financial instruments. The figures in the financial statements have been rounded to the nearest dollar (\$).

The Council is a public benefit entity and the financial statements have been prepared in New Zealand dollars. The functional currency of KDC is New Zealand dollars.

The specific disclosures included in the summary financial statements have been extracted from the full financial statements and these summary financial statements do not include all the disclosures provided in the full financial statements and cannot be expected to provide as complete an understanding as provided by the full financial statements.

EXPLANATION OF SIGNIFICANT VARIANCES

Explanations for major variations from Council's estimated figures for 2021/22 are as follows:

Statement of Comprehensive Revenue and Expense

The significant variances from the estimated figures include: additional income for subsidy and grants resulting from: "Pathways to Work" and "Mayor's Taskforce for Jobs" programmes and additional "other" revenue from disposal of sections at Central Cove.

There was additional expenditure for the employment schemes, waste disposal cost increases and removal of contaminated material from Central Cove.

Statement of Financial Position

Cash and cash equivalents and other financial assets overall, were lower than budget due to additional expenditure for waste disposal and removal of contaminated material.

Non-current assets (as well as reserves) were higher than budget due to the revaluation of assets to 30 June 2022.

Liabilities overall were higher than the budget due to recognising the retirement village resident's liability – this had been anticipated to be an asset sale.

Statement of Cash Flow

Subsidies and grants were higher than budget because additional grants were received for employment programmes.

Receipts from fees and charges were lower than budget however increased receipts from other sources offset this.

Payments to employees were lower than budget because there were some vacancies during the year.

There were 10 retirement units sold during the year, whereas the budget had anticipated 11 units being sold.

Also Council did not raise any loan funds as they were not needed during 2021/22.

STATEMENT OF COMMITMENTS

Council had capital commitments at 30 June 2022 of \$2,923,800 for construction of 11 retirement units. (2021 - \$886,951.00).

STATEMENT OF CONTINGENT LIABILITIES

Council had no contingent liabilities at 30 June 2022 (2021 - nil)

POST BALANCE DATE EVENTS

The post balance date events included:

Legislation passed in December 2022 established four publicly owned water services entities to carry out responsibilities for the delivery of three waters services and related assets and liabilities currently controlled by local authorities. A water services Bill to enable the transfer of these assets and liabilities to the water services entities, is currently before Parliament. Until the Bill is passed, the financial impact of the transfer on the District Council, remains uncertain.

On 13 April 2023, the Government announced further proposed amendments to the number of water services entities and staggering their establishment dates starting from early 2025, with all the water services entities to be established by 1 July 2026. The timing of the transfer of assets and liabilities is therefore uncertain until amendments to existing legislation are passed.

The other event after balance date included the increase in the OCR (Official Cash Rate) to 4.25% (and predicted to be 5.5% in 2023)

STATEMENTS OF SERVICE PERFORMANCE

During the 2021/22 year, Council achieved 65% of its non-financial performance targets compared to 68% for the previous year.

Activity	2021/22 No. of Targets	2021/22 Results		2020/21 Achievement Rate
		(Targets achieved)		
Democracy	3	1	33%	80%
Economic & Community Development	5	4	80%	86%
Environmental Services	11	7	64%	56%
Roading	7	4	57%	33%
Stormwater	3	3	100%	100%
Water Supply	12	10	83%	75%
Wastewater	7	3	43%	57%
Solid Waste Management	2	1	50%	100%
Leisure and Recreation	12	7	58%	63%
TOTAL*	62	40	65%	68%

*excludes the N/A targets

The following is a brief explanation of the targets that were not achieved and the actions being undertaken.

Democracy

50% (target >90%) of the annual works programme was completed for the year to 30 June 2022. The reason the target was not achieved was due to the disruptions caused by the COVID-19 pandemic, and the resulting backlog of projects as well as shortage of materials faced by contractors. Also public forums were not held for the year due to the COVID19 pandemic.

Economic and Community Development

The Covid-19 lockdown impacted on the delivery of events for December 2021, otherwise all targets would have been achieved.

Environmental Services

There were four targets that were not achieved:

- Response times for dog complaints
- Response times to noise complaints
- Satisfaction with building consent process
- Response times to other environmental health complaints

The reason that most of these targets were not achieved was due resourcing shortages. Some of these shortages will be addressed for the 2022/23 year, so it is anticipated there will be less targets not achieved for the next financial year.

Roading

Council did not achieve the targeted timeframes for responding to all streetlight outages. Council continues to work with the contractor to address the delays.

Also, Council resurfaced 1.2% of its sealed roads during the year (Target: 5.0% - 6.5%) and the road roughness score was 93% (Target: >95%).

Waka Kotahi (NZTA) has reviewed the quality of the district's roads and considered them to be in very good order and therefore Council does not need to resurface roads as often as it has been doing.

Water Supply

Council received 2.9 complaints per 1,000 connections about water pressure during the year (target < 2 per 1,000). Staff are working with consultants to increase the water pressure for specific properties. Also there was 2 technical breaches for protozoal compliance, which will be remedied for the future.

Wastewater

Council received fourteen infringement notices and consequently did not comply with the resource consent for wastewater due to material and volumes that were received from the dairy factory. Council has since entered to an agreement with the dairy factory to ensure that the resource consent is complied with and no further infringements are received, otherwise Council will stop any further trade waste being sent to the waste water treatment plant.

Also, Council had 4 dry weather during the year (Target: 0) due a sewer line collapse. Council has replaced the sewer line and is carrying an assessment programme to determine the remaining life of its pipes. Finally, Council took longer than 8 hours to resolve a sewer overflow due to the deterioration of the pipe, which was subsequently was renewed.

Leisure and Recreation

Council achieved 58% of its targets for leisure and recreation during the year.

The COVID-19 restrictions resulted in some targets not being achieved. Also resourcing shortages and extended repairs needed for the pool contributed to other targets not being achieved.
